Bewley’s have an exciting opportunity for 2 individuals to work on the implementation phase of our ERP Project – **ERP System Trainer**

**What is the job?**

Bewley’s are replacing existing software systems with an Oracle ERP product, JD Edwards. As we get closer to our ‘Go-Live’ date at the start of October, we will have a requirement for additional resources to assist with the data transfer and training of users on the new system. We are looking for enthusiastic, proactive, energetic and confident candidates who thrive in a fast paced environment to join our implementation team. This is ideally suited to a recent graduate.

We require the successful candidates to start in June to be trained on the system and assist in data transfer and training preparation. For this phase you will be based in our Offices in Northern Cross, Dublin. From August, the priority will be user training and this will involve travel nationwide to meet with teams in the field.

**How long is the contract for?**

5 months! We plan to go live at the start of October, training to be completed before ‘Go-Live’ with support requirements for the month post ‘Go-Live’.

**Who should apply?**

This role is ideal for Graduates who are system savvy and would benefit from the experience of working on an ERP system implementation project. The ability to learn a new system is important, equally important is the ability to communicate and train others on the system.

Given the nationwide aspect of the role candidates should have access to their own transport.

**Desired Skills & Experience**

- Degree in Business\Finance and IT related specialities
- Genuinely excited and motivated by challenge and change
- Ability to understand business processes and to learn a new ERP system. Prior experience with an ERP system such as JDE would be an advantage
- Strong written, verbal and presentation skills
- Strong interpersonal and teamwork skills
- Commitment to travel on assignment
- Excellent attention to detail
- Self-driven
