

DCU Institute of Education

School of STEM Education, Innovation and Global Studies

Lecturer in Mathematics Education

(Maternity Cover – Fixed Term Contract of up to 12 months)

Introduction

The completion of the DCU Incorporation Programme at the end of September 2016 saw the coming together of St. Patrick's College, Drumcondra, Mater Dei Institute of Education and Church of Ireland College of Education with Dublin City University – the New DCU.

Staff from DCU's School of Education Studies, the Education Department at St. Patrick's College Drumcondra, Mater Dei Institute and Church of Ireland College of Education formed the DCU Institute of Education. This is Ireland's largest centre of expertise in education offering degrees that prepare teachers and educators for every level of education from childhood through primary, secondary and onto further and higher education.

The DCU Institute of Education is based in a €70million state of the art, purpose built facility on DCU St Patrick's Campus from September 2016, where students engage with educators who are leaders in their field in an interactive and dynamic environment.

School of STEM Education, Innovation and Global Studies

The School of STEM Education, Innovation and Global Studies is one of six schools within the DCU Institute of Education. The School contributes to a range of high-quality undergraduate and postgraduate programmes across the education landscape. Through its teaching and research the School is centrally engaged in transforming the Irish education system and is a significant contributor to knowledge creation and policy development in the field of education.

Lectureship Position (Maternity Cover)

The School of STEM Education, Innovation and Global Studies is seeking to appoint a suitable Lecturer in the area of Mathematics Education, with a provisional start date at the end of January 2017. Applicants for the post must hold an honours degree in a relevant discipline and should be qualified to a post-graduate level. Completion of a Doctoral qualification in the field is desirable. The successful candidate will also have a minimum of three years relevant experience. Teaching experience in the sector is essential. The candidate should have demonstrable evidence of strong communication skills, report writing and should normally have a track record of research publications.

The post will have a range of responsibilities including but not limited to the following:

Teaching

The candidate will be required to contribute significantly to the development, teaching, assessment and administration of existing undergraduate and postgraduate programmes, including the BEd (Primary), the PME (Primary) and the MEd as well as a range of continuing professional development programmes. This teaching will include module delivery and school placement including its attendant duties of supporting and evaluating students on school visits and writing reports. In addition the candidate is expected to supervise undergraduate and postgraduate thesis, contribute to tutorials and to the wider teaching of the Institute as required by the Head of School.

Research

The Institute of Education is a centre of excellence in educational research and as such the candidate will be expected to contribute, develop and support research initiatives with the school. They will contribute to the scholarship and intellectual life of the University, which will enhance its reputation as a research-led teaching institution and which will make a significant contribution to the development of the DCU Institute of Education's research agenda.

Administration

The candidate will undertake administrative functions related to the activities of the School of STEM Education, Innovation and Global Studies. These activities defined by the Head of School may include participating in School meetings, engaging in meetings related to programmes, representing the School in marketing and recruitment of students, developing relationships with stakeholders, participating in open days, organisation of conferences and seminars etc.
