WELCOME

The Leadership POD is a development programme for emerging student leaders in Dublin City University. We recognize that the skills and competencies paired through involvement in club, societies, Student’s Union and volunteerism are critical to the development of the leadership skills your club or society as well as the employability skills that employers want! The Leadership POD aims to provide a framework where you can learn and develop as you volunteer and lead activities through development days, training, workshops and resources. The programme is supported by the DCU Sport Development Service.

The Leadership POD is a key component of DCU’s Generation 21 initiative and Graduation Service. The purpose is to shape our graduates into well-rounded individuals ready to make an impact on society and on the workforce.
