****** IMPORTANT MESSAGE ******

The purpose of this information sheet is to allow you view all modules connected to the Qualification, optional and core.

You should print this sheet out and then continue to the next step where your registration will take place.

It is your responsibility to ensure that you register correctly.

Single Module Programme (Psychology), Continuous

- Students may register for one to four modules in one academic year, from the following module list:
 - PY100: What is Psychology?
 - PY110: Exploring Psychological Research
 - PY230: Cognitive Psychology and Biopsychology
 - PY310: Abnormal Psychology and Psychological Counselling
- A specific request to study any other psychology module must be made to james.brunton@dcu.ie
 - PY320: Advanced Research Methods and Project. Please note this is an advanced module and involves the completion of a research project. This type of module requires a high level of commitment and therefore students should carefully consider registering for this module along with other modules. It is exceptional for a SMPPY student to take this module.
 - PLEASE NOTE: Where a student registers/is given leave to register for modules outside of the combinations detailed above, a schedule free of timetabling clashes cannot be guaranteed. If you think you may have registered for modules outside of the combinations

permitted in this document please contact james.brunton@dcu.ie as a matter of urgency.

[Please see the online prospectus for the SMPPY for more information.](#)
