Vision & Objectives

The DCU Raising for Animal Welfare society was set up to raise awareness and funds for the prevention of neglect and cruelty to animals in Ireland through events, campaigns and advertisement. To aid the continued efforts of individuals, non-profit charities and organisations who fight for the welfare of animals.

I have been Chairperson of the DCU Raising for Animal Welfare society since official commencement this academic year but founded the society in my first year at DCU. I am extremely proud of what we as a society have accomplished with the goals and objectives I set out to achieve. We have raised awareness and funds above and beyond what I thought possible in our first year but we continue to go from strength to strength and significantly help our chosen charities through awareness and fundraising.
