

Make a difference
in your local
community

Launching in 2018, The Bank of Ireland DCU Volunteering Venture seeks to promote sustainable community development and serves as a bridge between the resources of DCU, Bank of Ireland and the local community through student volunteering. Many organizations, charities and local community groups would not exist without the skills and enthusiasm volunteers bring. DCU actively encourages students to graduate with a rounded set of skills and experience as well as their degree – partnering with Bank of Ireland is a great opportunity to take DCU Volunteering to another level and make its opportunities available for more students.

Bank of Ireland are proud to support DCU in The Community in the launch of this venture in conjunction with our charity partners, Age Action Ireland and the Irish Heart Foundation, with a number of projects due to commence in the new year.
