

Transition Year Correspondence

A variety of university-style subjects offered by CTY Ireland, Dublin City

2019-2020 Academic Year

CTY Ireland's Transition Year Correspondence Courses offer students an opportunity to experience third level subjects in a supportive and encouraging learning environment. Over the course of six assignments, students will gain a deeper insight into their chosen subject, dealing first-hand with some of its core topics.

The courses are also designed to help develop the skills in academic writing necessary in third level study. Students will learn to research, to handle difficult topics and to formulate their own opinions to construct their own piece of work. Over the course of the six assignments, these skills will advance and develop with the help and guidance of the tutors and course organiser. By the final assignment, participants should have a good feel for their chosen subject, which should assist in their future educational planning.

Course Format

Courses involve students working remotely on set assignments. Once signed up, students receive a course handbook by email, and follow the assignments outlined, submitting their assignments by email on or before the given deadline. Feedback is sent by email (no later than ten days after the deadline). While the course is very student-centred it is recommended that parents ensure that assignments are returned on time and that students understand the requirements of each assignment.

Tutors

Our course tutors are each working or studying professionals in their own field. They understand that tackling these assignments can be daunting, but they are very encouraging. Many have tutored on these courses for a number of years, and so know how to effectively guide your learning and writing.

Requirements

Students must have access to the internet and an accessible email address, as most of our correspondence is conducted in this manner.

Upon Application

Course details will be emailed to applicants in December. The first assignment is due in early January, 2020. Assignments are submitted by email every 3-4 weeks.

Choose Just One Subject

We recommend that students undertake just one subject. Typically, the transition year timetable becomes very congested in the new year, and we have seen past students of these courses struggle to meet assignment deadlines.

Talent Search 2019/20 - FREE place

This year we are offering all students who partake in the TY correspondence programme a free place on our 2019/20 Talent Search. The Talent Search is an annual assessment which CTYI run to discover gifted youth around Ireland and it is used as an entry test for the CTYI Summer programmes. If you are interested receiving more information please tick the box on the application form.

Course Organisation

The courses are organised by the *Ms. Orla Dunne, Correspondence Course Manager* at Centre for Talented Youth, Ireland. Please contact Orla at orla.dunne@dcu.ie or 01 700 7051

Four Courses Available:

Legal Studies - Medicine - Psychology - Writing

Course fee
€200

Legal Studies

This practical course highlights different aspects of the law. Students will be challenged to come up with arguments to defend their position, and solve complex questions. Weighing up the merits of each case, students must decide on the fairest ruling. Legal arguments are often complex and very confusing, but they are always very interesting. Assignments include; the case of the Speluncean Explorers, the court system in Ireland, miscarriages of justice, precedent, capital punishment, the Irish Constitution and human rights.

Medicine

This correspondence course aims to introduce the student to the broad knowledge base that is required to study Medicine. It will give the student a chance to understand the normal functioning of the human body and learn through their own research how disease can come about. It will cover a broad range of topics from current medical knowledge to potential future developments. Through the assignments the student will learn not just the pathophysiology behind the disease but should also learn to recognise the signs and symptoms of common diseases and be able to understand the steps involved in making a diagnosis and managing a patient.

Psychology

This course aims to introduce students to some of the basic theoretical and applied areas of psychology. It involves analysing the value of psychological theories and explanations of human behaviour and thinking processes. It will also involve identifying the contribution of a psychological approach to current social issues. One of the main objectives of the course will be to encourage students to adopt a critical thinking approach to their writing. Assignments may include; an introduction to psychology, child development, memory, human intelligence and prejudice and perception.

Writing

This course will help you develop thinking and writing skills, desirable for upper secondary school and first year, university level. Through a graded series of highly effective and enjoyable writing assignments, students will gain an invaluable insight into the writing process. The course is tutored by a professional writer. Assignments topics include; rewriting a fairy-tale, writing thesis statements, poetry, creating a symbol out of a narrative and, ghost writing.

"This course has helped me a lot. I now vary my vocabulary as much as I can and try to structure my essays too. The course has introduced me to referencing my work and now I do it without thinking for school."

"I enjoyed the challenge of processing information and making it your own."

"I learned a number of valuable essay writing skills that will help me next year as I start my Leaving Cert. I have become skilled at referencing throughout this course and am very happy about this."

Transition Year Correspondence Agreement

I certify that I have read the 2019/2020 Transition Year Correspondence brochure, meet the criteria and agree to the terms of the Correspondence Programme.

I consent and agree that the personal data relating to the application provided on this form will be used by CTYI for the purposes of processing this application. This personal data will be retained until your child reaches the age of 21 years and then destroyed. CTYI will be the data controller in respect of such personal data. For further information on CTYI's data processing, including your data protection rights, please see CTYI's <http://www.dcu.ie/ctyi/CTYI-Policies>

* ☐ I give permission for my child to enter the 2019/2020 Transition Year Correspondence Programme.

* Student Signature

* Parent/Guardian Signature
