

## **Introduction to SPSS**

### **Coding and Entering Data**

- Data Types
- Coding Data (Variable View)
- Entering Data (Data View)
- Exporting Data from other sources

### **Manipulating Data**

- Compute Command
- Recode
- Select Cases
- Sort Cases

### **Descriptive Statistics**

- Frequency Distribution
- Descriptives
- Crosstabs
- Correlation
- Means

### **SPSS Files**

- Data Files
- Output Files
- Syntax Files

### **Statistical Tests**

- Independent Sample t-test
- Paired Sample t-test
- One Way ANOVA
- Chi-Square Test

### **Regression**

- Linear Regression
- Logistic Regression

### **Other Topics**
