Research Integrity

Researchers:
Ensure you understand your professional responsibilities

“Education and promotion of good research practice are the foundations of research integrity.”

Excerpt from the Policy Statement on Ensuring Research Integrity in Ireland.

This online Research Integrity course will:
- Enable you to conduct research of the highest quality and increase confidence in your published works
- Help you meet the criteria for many key funding bodies
- Update you on best practice in responsible research behaviour and so improve your career prospects.
DCU’s online *Research Integrity* training course covers every stage of the research process, highlighting the issues that can arise while planning, conducting and reporting your research.

**Choose from the stream that best fits your discipline area:**

- Arts and Humanities
- Biomedical Sciences
- Engineering and Technology
- Natural and Physical Sciences
- Social and Behavioural Sciences

*Research Integrity* online is available via LOOP (loop.dcu.ie) and the course is **compulsory** for first-year research students (with the exception of Doctor of Education students who are required to complete the course in year three of registration). Participants are required to self-register and must complete the online module by **May 1st 2020**.

In addition, a number of support sessions will be held for graduate researchers to attend throughout the academic year, beginning with **An Introduction to Research Integrity** in November. Other sessions to follow in **semester two** include:

- Data Management and GDPR
- Ethical Considerations and DCU’s Ethical Review Process
- Dissemination of your Research, Authorship and Advocacy

Remember to check the GSO’s Workshop & Events website for registration and venue details: [dcu.ie/graduatestudies/Workshops_and_Events.shtml](http://dcu.ie/graduatestudies/Workshops_and_Events.shtml)

Further information on research integrity is available from the DCU website: [dcu.ie/researchsupport/research_integrity.shtml](http://dcu.ie/researchsupport/research_integrity.shtml)
