

Using Creative Research Methods

This interactive afternoon workshop will be run by Dr Helen Kara, author of 'Creative Research Methods in the Social Sciences: A Practical Guide'. You will learn about the four pillars of creative research methods: arts-based research, research using technology, mixed methods research, and transformative research frameworks. The workshop will also cover the relationship between creative research and ethics, and allow time to discuss learning and share experiences with others, as well as providing some hands-on experience. You will leave with a good understanding of how creative approaches can be used alongside more conventional methods to enhance all stages of the research process.

Time: 14.00-17.00

Date: Monday 11th February 2019

Location: F220, Second Floor, F-Block, St Patrick's Campus, DCU
