Exit Entry Project

Postdoctoral Researcher in Organisational Psychology

Postdoctoral Researcher

Fixed Term Contract up to 18 months

Background - DCU

Dublin City University (DCU) is one of the largest universities in Ireland. Its student population is approximately 17,000, including 500 research postgraduates and over 1,800 taught postgraduate students, plus around 3,000 distance education students. DCU is a research-led university which has developed its own research specialists, established internationally recognized centres of excellence that have substantive collaborative links with leading universities and industrial partners.

DCU has a strong track record in attracting both Irish and European Union research funding under Horizon 2020 (and all previous Framework Programmes), Marie Curie Actions and Erasmus. We offer a dynamic and internationally-focused environment in which to advance your academic career

Exit Entry Overview

The rapid and constant changes in the global market have caused disruption not only to companies' business models but also to the labour markets. Over the next 5 years, enormous modifications are predicted in the skill sets needed to thrive in this new landscape. In the face of increasing automation, soft skills are the key differentiator to cope with these seismic economic shifts. Current recruitment processes focus on academic ability. We propose a software platform that showcases and measures student's key soft skills, has a live video pitch for students and connects them directly with multinationals and corporations for job opportunities. We match student's soft skills with job soft skills. We are building a software platform that measures and showcases student's soft skills and connects them to employers. This product once built will be launched directly onto the market. We are looking for someone with a passion that loves innovative solutions to global problems. The idea is to be part of a diverse team that is developing a software tool that provides global opportunities for students. You can sense that Exit Entry is all about human skills and how these are influenced by environments, organisations and diverse groups. This is a chance to be part of something that will have an impact and drive changes for

students .In a nutshell, we are a team of Psychologists, Technologists, Business leaders and Designers and we are looking to expand our team to help us create our Global vision.

Duties and Responsibilities

The duties and responsibilities of the position include, but are not restricted to the following activities

- Data analysis using statistical methods and applications, in order to evaluate the outcomes and effectiveness of the new tools (questionnaires and videos) developed in Exit Entry
