Dublin City University (www.dcu.ie) is a research-intensive, globally-engaged, dynamic institution that is distinguished both by the quality and impact of its graduates and by its focus on the translation of knowledge into societal and economic benefit. Excellence in its education and research activities has led to its ranking in the top 2% of universities globally and its consistent position in the top 50 of the almost 10,000 young universities worldwide (QS Top 50 under 50).

DCU prepares its students well for success in life, and in the workplace, by providing a high-quality, rounded education appropriate to the challenges and opportunities of the 21st century.

DCU is Ireland’s fastest growing university and its next phase of major development involves strategic investments of more than €0.3bn, including a €0.2bn campus development plan. As Ireland’s University of Enterprise, DCU is renowned for its commitment to innovation and entrepreneurship and its proactive engagement with the enterprise sector.

AIB is a financial services group operating predominantly in Ireland and the UK. It provides a comprehensive range of services to personal, business and corporate customers, and has leading market shares in banking products in the Republic of Ireland. As a market leader in digital banking services in Ireland, AIB is committed to supporting new and emerging opportunities in the area of big data and analytics.

The Position

In keeping with its reputation for developing expertise in areas of major technological significance, DCU, in partnership with Allied Irish Banks (AIB), is seeking to make a key appointment in Data Analytics at full professorial level.

The successful candidate will be internationally-renowned in this field and will have an outstanding research record. S/he will provide leadership and scholarship in the area of Data Analytics and related topics, and will deliver modules across a range of degree programmes, including DCU’s new and nationally unique B.Sc. in Data Science.

The position will be based in DCU’s School of Computing, which has earned a strong reputation for excellence in research and in teaching at both undergraduate and postgraduate levels. The School is strongly research-active and staff members play a key role in a number of Science Foundation Ireland (SFI) Research Centres, including the Insight Centre for Data Analytics (www.insight-centre.org), Ireland’s largest ever research initiative.

This position presents an exciting opportunity for a results-driven individual to make a significant contribution to the future of DCU as it enters its next stage of major development. The successful candidate will normally have achieved the rank of Professor/Associate Professor.

Remuneration

An attractive salary, commensurate with the successful applicant’s experience will be offered to the holder of the post. Closing date for applications is Friday, 24th March 2016.

Informal Inquiries

Informal enquiries should be addressed to Professor Rory O’Connor, Head of School of Computing Email: rory.oconnor@dcu.ie
