

Research Centre	ADAPT Centre, Centre for Digital Content Platform Research
Post title	Post-Doctoral Researcher in Machine Translation Quality Estimation and Evaluation
Level on Framework	Level 1
Post duration	24 Months

As part of this role the researcher will be required to participate in the DCU Research Career Framework. This framework is designed to provide significant professional development opportunities to Researchers and offer the best opportunities in terms of a wider career path.

Background & Role

The ADAPT Centre, the centre for digital content platform research seeks to appoint a postdoctoral researcher in Machine Translation Quality Estimation and Evaluation. ADAPT is Ireland's global centre of excellence for digital content and media innovation. Led by TCD, it combines the expertise of researchers at four universities (Trinity College Dublin, Dublin City University, University College Dublin, and Dublin Institute of Technology) with that of its industry partners to produce ground-breaking digital content innovations.

ADAPT brings together more than 120 researchers who collectively have won more than €100m in funding and have a strong track record of transferring world-leading research and innovations to more than 140 companies. With EURO 50M in new research funding

from Science Foundation Ireland and industry, ADAPT is seeking talented individuals to join its growing research team. Our research and technologies will continue to help businesses in all sectors and drive back the frontiers of future Web engagement.

Principle Duties and Responsibilities

The successful candidate will work within a large group of Postdoctoral Researchers, PhD students and Software Developers. The research will combine both applied research and platform research.

Reporting to his/her Principal Investigator the Postdoctoral Researcher will:

- Apply machine learning algorithms to translation quality estimation and evaluation.
- Apply translation quality estimation and evaluation to tuning of machine translation system.
- Provide support and advice to PhD students in the same project, as well as to others working in the Theme.
- Produce top-quality journal and conference publications, in collaboration with the PI.
- Identify and write proposals for research funding.
- Participate in ADAPT centre activities, such as industry showcases, annual reviews and industry targeted projects.
- Report on progress at meetings and in writing to ADAPT centre management.
- Assist in identifying and developing future research and funding initiatives
- Engage in the dissemination of the results of the research in which he/she is engaged with the support of and under the supervision of the Principal Investigator.
- Engage in appropriate training and development opportunities as required by the Principal Investigator, the School or Research Centre, or the University.
- Liaise with both internal and external stakeholders including industry and academic partners/collaborators.
- Carry out administrative work associated with the programme of research as necessary.

Funding Information

The position is funded through the Science Foundation Ireland (SFI) ADAPT Research Centre.

Minimum Criteria

It is essential that applicants have a PhD in Machine Translation, Natural Language Processing or a related discipline. The successful candidate should have a strong background in machine learning and statistical machine translation (SMT), as well as experience with state-of-the-art machine learning and SMT technologies. In addition, the candidate should have:

Required Skills:

- Excellent research skills with proven publication record in machine learning and machine translation.

- Strong academic writing and presentation skills.
- Excellent programming skills.
- Ability to work independently as well as a team member.
- Self-motivated, mature and good time management/planning skills.

Desirable Skills:

- Ability to supervise postgraduate or PhD students.
- Experience in project management.
- Experience of working with industries.

Salary: €37,750 - €46,255

Appointment will be commensurate with qualifications and experience.

Closing date: Friday 8th May, 2015

Candidates will be assessed on the following competencies:

Discipline knowledge and Research skills – Demonstrates knowledge of a research discipline and the ability to conduct a specific programme of research within that discipline.

Understanding the Research Environment – Demonstrates an awareness of the research environment (for example funding bodies) and the ability to contribute to grant applications

Communicating Research – Demonstrates the ability to communicate their research with their peers and the wider research community (for example presenting at conferences and publishing research in relevant journals) and the potential to teach and tutor students

Managing & Leadership skills - Demonstrates the potential to manage a research project including the supervision of undergraduate students.

Application Procedure

Informal Queries to: Aoife Brady Aoife.brady@adaptcentre.ie. Please include the ADAPT Position Title in all email communications.

Application forms are available from the DCU Current Vacancies (open Competitions) website at <http://www.dcu.ie/vacancies/current.shtml> and also from the Human Resources Department, Dublin City University, Dublin 9. Tel: +353 (0) 1 7005149.

Please clearly state the role that you are applying for in your application and email subject line: Job Ref #69: Adapt Post-Doctoral Researcher in Machine Translation Quality Estimation and Evaluation

Applications should be submitted by email to hr.applications@dcu.ie or by Fax: +353

(0)1 7005500 or by post to the Human Resources Department, Dublin City University, Dublin 9. Human Resources Department, Dublin City University, Dublin 9. Tel: +353 1 700 5149; Fax: +353 1 700 5500 Email: hr.applications@dcu.ie
