As part of this role the researchers will be required to participate in the DCU Research Career Framework. This framework is designed to provide significant professional development opportunities to Researchers and offer the best opportunities in terms of a wider career path.

**Background & Role**

The ADAPT Centre for digital content technologies seeks to appoint two Post-Doctoral Researchers in Natural Language Processing (NLP) on the targeted research programme which addresses the research and development interests of ADAPT industry partners.

ADAPT is Ireland’s global centre of excellence for digital content technologies. Led by TCD, it combines the expertise of researchers at four universities (Trinity College Dublin, Dublin City University, University College Dublin, and Dublin Institute of Technology) with that of its industry partners to produce ground-breaking digital content innovations.

ADAPT brings together more than 120 researchers who collectively have won more than
€100m in funding and have a strong track record of transferring world-leading research and innovations to more than 140 companies. With €50M in new research funding from Science Foundation Ireland and industry, ADAPT is seeking talented individuals to join its growing research team. Our research and technologies will continue to help businesses in all sectors and drive back the frontiers of future Web engagement.

**Principal Duties and Responsibilities**

The successful candidates will work within a large group of Postdoctoral Researchers, PhD students and Software Developers. The work of the Post-Doctoral researchers will be fundamental in applying ADAPT research breakthroughs in NLP to application areas identified by our commercial partners, with whom the researchers will necessarily work closely.

Reporting to his/her Principal Investigator the Post-Doctoral Researchers will:

- Research solutions to problems identified by industry partners in the application of NLP in business. This may include, but is not limited to, the following:
  - morphological analysis
  - part-of-speech tagging
  - chunking
  - syntactic and semantic parsing
  - cross-lingual adaptation
  - text normalisation
  - text summarisation
  - keyword extraction
  - multilingual processing
  - language detection
  - user generated content (social text) processing
  - sentiment analysis
  - question answering
  - spelling and grammar checking
  - textual entailment
  - text quality analysis
  - text classification
  - named entity recognition
  - entity and relation extraction
- Produce top-quality journal and conference publications, in collaboration with the PI, and, where appropriate, industry partners.
- Identify and write proposals for research funding.
- Participate in ADAPT centre activities, such as industry showcases and annual reviews.
- Provide support and advice to any PhD students working on the same project.
- Engage in teaching and teaching support as assigned by the Head of School under the direction of the Principal Investigator
- Report on progress at meetings and in writing to ADAPT Centre Management.
- Assist in identifying and developing future research and funding initiatives.
- Engage in the dissemination of the results of the research in which he/she is engaged with the support of and under the supervision of the Principal Investigator.
- Engage in appropriate training and development opportunities as required by the
Principal Investigator, the School or Research Centre, or the University.

- Liaise with both internal and external stakeholders including industry and academic partners/collaborators.
- Carry out administrative work associated with the programme of research as necessary.

**Funding Information**

The position is funded through the Science Foundation Ireland (SFI) ADAPT Research Centre.

**Minimum Criteria**

It is essential that applicants have a PhD in Natural Language Processing or a related discipline. In addition, it is desirable that the candidate has:

- A strong background in NLP technologies.
- Excellent machine-learning skills.
- Excellent programming skills.
- Excellent research skills, with experience, ideally, in the following:
  - NLP system-building and deployment expertise.
  - A wide knowledge of NLP technologies,
  - Up-to-date knowledge of the main areas of application for NLP in industry and academia.
  - Cluster and parallel computing for NLP.
  - Machine learning and deep learning.

**Salary**: €37,750 - €46,255

Appointment will be commensurate with qualifications and experience.

**Closing date**: 6th July, 2015

**Candidates will be assessed on the following competencies**:  

**Discipline knowledge and Research skills** – Demonstrates knowledge of a research discipline and the ability to conduct a specific programme of research within that discipline and in collaboration with industry partners.

**Understanding the Research Environment** – Demonstrates an awareness of the research environment (for example funding bodies and key industry players) and the ability to contribute to grant applications.

**Communicating Research** – Demonstrates the ability to communicate their research with their peers, with industry partners, and with the wider research community (for example presenting at conferences and publishing research in relevant journals) and the
potential to teach and tutor students

Managing & Leadership skills - Demonstrates the potential to manage a research project including the supervision of undergraduate students and to meet industry partner expectations regarding project turn-around times.

Application Procedure

Informal Queries to: Aoife Brady Aoife.brady@adaptcentre.ie. Please include the ADAPT Position Title in all email communications. 
Please do not send applications to this email address, instead apply as described below

Application forms are available from the DCU Current Vacancies (open Competitions) website at http://www.dcu.ie/vacancies/current.shtml and also from the Human Resources Department, Dublin City University, Dublin 9. Tel: +353 (0) 1 7005149.

Please clearly state the role that you are applying for in your application and email subject line: Job Ref 109 Post-Doctoral Researchers in Natural Language Processing (Spokes)

Applications should be submitted by email to hr.applications@dcu.ie or by Fax: +353 (0)1 7005500 or by post to the Human Resources Department, Dublin City University, Dublin 9. Human Resources Department, Dublin City University, Dublin 9. Tel: +353 1 700 5149; Fax: +353 1 700 5500 Email: Insert hr.applications@dcu.ie
