

**International Centre for Neurotherapeutics (ICNT)**

**Attractive Biopharmaceutical Post: Supervisor of Quality Assurance (QA)/  
Certified Qualified Person (QP)**

**ICNT** is a multi-disciplinary, internationally-competitive and well-funded Centre whose research focuses on developing novel, long-acting biotherapeutics for chronic pain. Towards this clinically-important goal, new recombinant generations of botulinum neurotoxins are being engineered so that their therapeutic characteristics can be tailored to act as anti-nociceptives. This innovative strategy has already yielded two candidates with proven ability to give prolonged amelioration of chronic pain in animal models. These unique and promising recombinant neurotherapeutics are being produced in a new 'state-of-the-art' Good Manufacturing Practice (GMP) facility for evaluation in man, and subsequent commercial development.

**Key roles:**

Complete the advanced preparation of all documents needed for application to the Health Products Regulatory Authority (HPRA) for accreditation of a GMP facility and licence to manufacture an Investigational Medicinal Product.
