Research Centre: Fin Tech Fusion - ADAPT Research Centre

Post Title: Research Project Officer

Post Duration: Fixed Term Contract up to 31st August 2022

Background
Dublin City University (www.dcu.ie) is a research intensive, globally engaged, dynamic institution which has developed its own research specialists, established internationally recognized centres of excellence that have substantive collaborative links with leading universities and industrial partners. DCU is distinguished both by the quality and impact of its graduates and by its focus on the translation of knowledge into societal and economic benefit. Through its mission to transform lives and societies through education, research and innovation DCU acts as an agent of social, cultural and economic progress. DCU is Ireland’s fastest growing university and now hosts more than 17,000 students across its three academic campuses: DCU Glasnevin Campus, DCU St Patrick’s Campus and CU All hallows campus. DCU has a strong track record in attracting both Irish and European Union research funding under Horizon 2020 (and all previous Framework Programmes), Marie Curie Actions and Erasmus. We offer a dynamic and internationally-focused environment in which to advance your academic career.

The ADAPT Centre, a world-leading SFI Centre, is Ireland’s global centre of excellence for digital content technology funded through Science Foundation Ireland’s Centres programme. ADAPT combines the expertise of over 300 researchers across seven Higher-Education Institutes (Trinity College Dublin, Dublin City University, University College Dublin, Technological University Dublin, Cork institute of Technology, Athlone Institute of Technology and Maynooth University) with that of its industry partners to produce ground-breaking digital content innovations. The ADAPT Centre executive function is co-hosted between Trinity College Dublin and Dublin City University. ADAPT brings together more than 250 researchers who collectively have won more than €100m in funding and have a strong track record of transferring world-leading research and innovations to more than 140 companies. ADAPT partners are successfully advancing the frontiers of Artificial Intelligence (AI),
content analysis, machine translation, personalisation, e-learning/education, media technologies, virtual and augmented reality, and spoken interaction, as well as driving global standards in content technologies.

**The Project**
The goal of FinTech Fusion is to strengthen the international competitiveness of the Irish Financial Services Industry through the production of new results from cutting edge Financial Technology research. The research will be led by the ADAPT Centre and includes researchers from two other existing SFI research centres, Insight and Lero, along with industry collaborators.

**The Role**
Working within the Design and Innovation team and with the Fintech Fusion Senior Executive Manager in the ADAPT centre and reporting to the Senior Project Manager, the Research Project Officer will work closely with our academic and research colleagues to deliver high-impact research driven innovation projects with our industry partners. The Research Project Officer will proactively nurture and strengthen relationships with Industry Partners and address their business challenges through the identification and application of ADAPT research expertise and through effective project management.

**Principal Duties and Responsibilities**
Please refer to the job description for a full list of duties and responsibilities associated with this role.

**Qualifications, Experience and Skills required:**
This position is open to candidates who meet the following criteria:

- A primary degree, ideally in Computer Science, Computer Engineering or equivalent. Other disciplines, where appropriate, may be considered.
- A minimum of 3 years’ project management experience in a software development environment, or with industry focused technology research projects.
- Additional experience in Fintech or Financial Services would be a distinct advantage.
- Excellent social & I.T. skills, and a demonstrative ability to build relationships and positive rapport with industry partners, colleagues and all other stakeholders.
Experience managing multiple concurrent projects end to end while identifying and managing risk
Experience of agile software development methodologies and PMBOK
Comfortable scaling from short-term, small projects up to multi-disciplinary, 12 months+ projects
Excellent written and oral proficiency in English (essential), excellent communication and social skills both written and verbal
Should possess excellent computer skills with experience of project management and collaboration tools
Ability to problem solve, assist creativity, promote innovative ideas and solutions
Experience in assisting and working within distributed teams
Experience with assisting user trials and/or system performance evaluations
Familiarity with the scientific evaluation and publication process
Experience with designing and mobilising the project management process
Proven ability to prioritise workload and work to exacting deadlines
Ability to negotiate access to resources in a matrix-type organisation
Excellent organisational, communication and conflict resolution skills
Strong customer facing skills
Adaptive thinker with broad perspective.
Professional accreditation(s) in software development or project management methodologies is an advantage.

Mandatory Training
The post holder will be required to undertake the following mandatory compliance training: Orientation, Health and Safety and Intellectual Property and Data Protection training. Other training may need to be undertaken when required.

Salary Scale: €49,316 - €66,690* (Grade V.II)
*Appointment will be commensurate with qualifications and experience will be made on the appropriate point of the salary scale, in line with Government pay policy.

Closing date: June 17th 2020
Candidates will be assessed on the following competencies:

**Discipline knowledge and Research skills** – Demonstrates knowledge of a research discipline and the ability to conduct a specific programme of research within that discipline.

**Understanding the Research Environment** – Demonstrates an awareness of the research environment (for example funding bodies) and the ability to contribute to grant applications.

**Communicating Research** – Demonstrates the ability to convey their research with their peers and the wider research community (for example presenting at conferences and publishing research in relevant journals) and the potential to teach and tutor students.

**Managing & Leadership skills** - Demonstrates the potential to manage a research project including the supervision of undergraduate students.
