Applications are invited from suitably qualified candidates for the following position:

**Business Analyst, Technology & Integration**  
**Student Information Systems (SIS) programme**  
**Office of Vice-President Academic Affairs (Registrar)**  
**Dublin City University**  
**1 Year Fixed-Term Contract**

Dublin City University (www.dcu.ie) is a research-intensive, globally-engaged, dynamic institution that is distinguished both by the quality and impact of its graduates and by its focus on the translation of knowledge into societal and economic benefit. Through its mission to transform lives and societies through education, research and innovation, DCU acts as an agent of social, cultural and economic progress. DCU is Ireland’s fastest growing university, and now hosts more than 17,000 students across its three academic campuses: DCU Glasnevin Campus, DCU St Patrick’s Campus and DCU All Hallows campus.

**Student Information Systems**  
The University is now looking to transform the way in which its staff and students interact with each other, using student information to align to our values and achieve excellence in service, ensuring the future needs of DCU can be met.

The Student Information Systems (SIS) project is being mobilised in the Office of the Vice-President Academic Affairs to deliver this transformational change. This transformation will be enabled by effective and efficient business processes supported by a fully integrated Student Information System (SIS) which will support our objectives to create and sustain a globally engaged university.

The SIS project will consolidate and modernise multiple legacy student information systems into one, integrated software solution. The new SIS includes all crucial student information: admissions, finance, registration, enrolment, course management, advising, billing and payment, records, and more. Students will be able to access all of their key information through a single point-of-entry, providing a more agile and personalised experience.

**Role Overview**  
Working as part of the SIS Programme Team and reporting to the Technology & Integration Lead or nominee, the Business Analyst will have general responsibilities to assist the programme delivery and specific responsibilities relating to activities covered by the Technology & Integration Delivery Stream which oversees the technical design and configuration of the new SIS.

**Duties and Responsibilities**  
Please refer to the job description for the full list of duties and responsibilities associated with this role.
Candidate Requirements

Essential:
- Applicants must possess a primary degree, preferably in Information Technology, Computer Science or other relevant field;
- Have a minimum of 3 years’ relevant experience as a Business Analyst;
- The ability to work independently, to exercise influence and judgement, and to challenge positively while working effectively with a variety of stakeholders at multiple levels is essential;
- Proven workshop facilitation skills;
- A proven track record working on large projects preferably in the Higher Education Sector;
- Strong Business Analysis skills with an ability to apply best practice within this area;
- A high level of critical thinking and problem-solving skills;
- Excellent relationship management and communications skills (written and oral);
- Excellent stakeholder management skills;
- Self-motivated with demonstrated skills in a project role;
