Faculty of Engineering and Computing
School of Mechanical and Manufacturing Engineering
Professor/Associate Professor in Mechanical and Manufacturing Engineering

The School of Mechanical and Manufacturing Engineering in DCU offers an extensive range of dynamic and innovative taught and research programmes at both undergraduate and postgraduate level and has forged itself a strong reputation for excellence in research in both its Masters and PhD activities since the school was founded in 1987. The school’s innovative approach has been to anticipate new directions in Mechanical and Manufacturing Engineering relevant themes and to meet these challenges through strategic development of its portfolio in teaching and learning, and research, and the integration of its teaching and learning-research activities.

The School makes significant contributions to the body of global knowledge in support of societal, commercial and industrial needs, while meeting national and international academic standards through its research in the strategic thematic areas of: Biomedical Engineering, Innovative Manufacturing and Sustainable Technology/Energy.

The School now seeks to appoint a highly qualified Professor/Associate Professor in Mechanical and Manufacturing Engineering who can demonstrate teaching/research/service leadership skills, plus be highly research active in the areas of Biomedical Engineering, Innovative Manufacturing or Sustainable Technology/Energy research. This position is being offered on a full time permanent basis.
