

MA in Data Protection and Privacy Law

Programme Academic Structure

This information is provisional and subject to change. The programme structure comprises modules to which the School of Law and Government and the School of Computing is committed. However, it cannot guarantee that every module runs every academic year.

- Admission to either stream will be dependent upon existing qualifications.
- All students must choose 2 optional modules.
- Students on the computing stream must choose either Comparative Privacy Law and European & International Human Rights Law and one other computing module.
- Students on the law stream must choose any 2 from the 4 optional law modules.
