

Applications are invited from suitably qualified candidates for the following position:

Research Data and Systems Officer
Professional 4
Research & Innovation Support (RIS)
11 Month Fixed Term

Dublin City University

Dublin City University (DCU) is a leading innovative European University. It is proud to be one of the world's leading Young Universities and is among the world's top 2% globally. DCU is known as Ireland's University of Impact, with a mission to 'transform lives and societies' and focuses on addressing global challenges in collaboration with key national and international partners and stakeholders.

DCU has over 20,000 students in five faculties spread across three academic campuses in the Glasnevin-Drumcondra area of North Dublin. Thanks to its innovative approach to teaching and learning, the University offers a 'transformative student experience' that helps to develop highly sought-after graduates. DCU is currently No. 1 in Ireland for Graduate Employment Rate, and for graduate income (CSO).

DCU is a research-intensive University and is home to a number of SFI-funded Research Centres. The University participates in a range of European and international research partnerships. DCU is also the leading Irish university in the area of technology transfer as reflected by licensing of intellectual property.

As a 'People First' institution, DCU is committed to Equality, Diversity and Inclusion - a University that helps staff and students to thrive. The University is a leader in terms of its work to increase access to education and is placed in the world's Top 10 for reducing inequalities in the Times Higher Education Impact Rankings.

Research and Innovation Support

Higher Education in Ireland is continually evolving, with significant changes to research policy and research funding occurring both nationally and internationally. DCU's institutional strategy will evolve and respond to this landscape while adhering to our core values as an institution of transformation. The research component of DCU's mission is supported centrally by four core teams: Research Development, Research Support, Research Project Administration and Research Infrastructure. These teams facilitate excellent research and research impact, support the enhancement of DCU's research reputation and strategic national and international partnerships,

provide sector-leading and integrated professional support for DCU's research communities and enhance our internal research policy and process landscape to ensure DCU's research is conducted to the highest possible standards. Our fundamental objective is support DCU's researchers to transform lives and societies locally, nationally and globally.

The Role

DCU Research and Innovation Support (RIS) is now recruiting for the exciting role of Research Systems Administrator. Reporting to the Research Information and Analytics Officer, the overall purpose of the role is to provide professional and comprehensive support to the DCU research community in relation to the institutional research information management systems (RIMS) that support the funded research lifecycle in DCU (e.g. the funding opportunities database, the grant management system, the research profile system and SciVal). Applications are sought from candidates with excellent administrative, IT, communication and interpersonal skills.

Principal Duties and Responsibilities

Please see attached job description for principal duties and responsibilities of the role.

Qualifications, Skills and Experience Required

Candidates must hold a University degree and have a minimum of three years' relevant work experience in a systems support or data-focused role.

- Proficiency with Excel, Microsoft Word and PowerPoint and a good aptitude to learning additional skills are essential. Data analysis expertise would be highly desirable.
