

Guide on Completing a Student Assistance Fund Application Form

Whether you are applying for the first time or have applied in previous years, prior to applying, ensure you have read the following on the links on our website –

Eligibility Criteria

Required Supporting Documentation

Information and Guidelines

Please note, it is of utmost importance to read the above as, there is a very large number of applications – There is **no time to follow up with students on queries or any omitted documents** therefore, if not completed correctly for either of these reasons, an application will be deemed unsuccessful. It is advised that time is taken on completing an application.

Please note if you are in receipt of a SUSI grant, not all questions will be applicable to you.

The Student Assistance Fund is opened for four weeks providing ample time for students to complete and upload required supporting documents.

Students can only apply once within the year and if rewarded the sum is a once off payment.

Once completed ensure you click on **'Submit'** at the end of the application otherwise it will be left on the system in 'draft' form which indicates, it was not completed and therefore, will not be considered.

Online application – A link to apply will be provided on our below webpage

<https://www.dcu.ie/students/student-assistance-fund-financial-assistance-service>

Students can change any errors made/omitted information in answering questions after Section 1 prior to the closing date and **prior to clicking on 'submit'** at the end. To do so, when in Personal Section 1, tab to next page.

After clicking 'Submit' at the end of an application, the only option a student has is to upload documents on the last page – no changes can be made at this stage.

To apply students must agree to DCU's **Data Protection Notice** and tick the consent box.

All questions, which are straight forward must be completed. Below are some explanations to clarify some questions.

If a student is on **paid placement/internship** either in Semester 1 or 2 a monthly income must be noted – this can be noted under 'Other income' with brief explanation in next box.

'Amount Awarded by SUSI per month' – this is the monthly maintenance amount ONLY from SUSI. It does not include the grant amount towards Fees.

'Are you currently employed in part-time work' – If yes, please complete what your occupation is. A student must calculate an average monthly income. The calculation is over the nine-month academic year, September to May.

How to calculate – Write down what you know you will earn/project what you will earn each month separately (September to May). An average projection must be made as hours may vary each month. Add up each of the nine months and divide by 9 – this will give you the monthly amount to note.

'Maintenance Support Monthly Amount' – This is NOT the monthly Children's Allowance which is not noted in income. This maintenance could be maintenance from a separated spouse or other parent of a child/children.
