REGISTRATION RULES

1. Students on the Bachelor of Arts (Hons) in English and History have a maximum registration period of eight years.
2. Maximum number of modules you can register for in one academic year is 4. (However, students who do not have specific exemptions for the foundation modules can only take the two foundation modules in their first year)
3. Please note that you can only register for a post foundation module in a subject if you have successfully passed the foundation module e.g. to register for HIS2 or any post foundation History module you must have successfully completed HIS1 (or have been granted an exemption from the HIS1 module).
4. Modules in the same subject must be taken in numerical order, except where two numerically adjacent modules are taken together in the same year, i.e. taking LIT2 and LIT3 together.
5. You may select no more than two modules from the same subject in any academic year.
6. Lit6: Please note that this advanced module involves the completion of a dissertation. This type of module requires a high level of commitment and therefore students registering for Lit6 should carefully consider the number of other modules they take in that academic year (the feasibility of taking this module in combination with other modules will, of course, depend on the capability of the student and the amount of time the student can dedicate to their studies).
7. His6: Please note that this advanced module involves the completion of a dissertation. This type of module requires a high level of commitment and therefore students registering for His6 should carefully consider the number of modules they take in that academic year (the feasibility of taking this module in combination with other modules will, of course, depend on the capability of the student and the amount of time the student can dedicate to their studies).
8. All modules will be presented in 2021-2022.
9. Technology and Online Skills Requirements: Your learning experience as a DCU Connected student is enhanced through the use of learning technology and rich digital media. We understand that students will have varying degrees of technical experience and ability when they begin their studies. Due to the key role technology will play in your studies you should be ready to engage with relevant technologies to a minimum level when you begin your studies. That is, you should be familiar with using email, browsing the Internet, downloading files, and using the word processing package Microsoft Word. When you begin your studies you will then further develop your skills with using technology in your studies. Becoming more confident in the use of technology, as you study, will then help you succeed as an online distance learner. You can find detailed information on the necessary equipment and skills required for DCU Connected students under the section ‘Technology Requirements’.
