

## FACULTY OF ENGINEERING AND COMPUTING

### Programme Regulations 2022-2023

<b>Programme Title</b>	<b>BEng Electronic and Computer Engineering</b>
<b>Programme Code</b>	<b>ECE</b>
<b>Offered on a full-time or part-time basis</b>	<b>Full Time (01)</b>

**Note:** *Programme Regulations should be read in conjunction with Marks and Standards which can be found at <https://www.dcu.ie/ovpaa/Policies-and-Regulations.shtml>*

#### 1. Programme Specific Rules and Requirements

##### 1.1 Calculation for the Award Classification

The calculation of the final year award classification includes contributions from previous years' results as follows:

<b>Year contribution</b>	<b>Contribution to the award classification</b>
Year 3	15%

Major options are made available in 4<sup>th</sup> Year, subject to student choice and resource provision. Major option topics may vary in response to perceived market needs and technological trends.

##### 1.2 Module Calculation (specific modules)

There are modules on this programme where the module mark will be calculated as the greater of (a) the weighted average of the continuous assessment percentage mark and the terminal examination percentage mark or (b) the terminal examination mark.

The modules are as follows:

<i>Module Code</i>	<i>Module Title</i>
PS202	Electromagnetism

## 2. Derogations from Marks and Standards

Marks and Standards apply.

## 3. Progression

### 3.1 *Credits for progression*

Students must have successfully completed a minimum of 60 credits in a study period in order to progress to the next study period, accepting circumstances as outlined in point 3.2.

### 3.2 *Carrying of modules*

Students will not be permitted to “carry” modules except in exceptional circumstances and subject to the approval of the Progression and Award Board and mode of delivery permitting.

### 3.3 *Exit Awards*

In the case that students have exhausted all attempts at ECE4, or where otherwise authorised by the ECE Program Board, the student may be offered with a BSc in Electronic and Computer Technology (ECT4) as an early-exit award providing they meet the requirements (15-credits from 4th year modules). The grade for the exit award would be based on a precision mark calculated from the credit-weighted average of the marks achieved in the non-INTRA modules from the third year of the target programme, along with the highest scoring 15 credits successfully completed from the fourth year.

## 4. Compensation

Compensation may apply, within the regulations specified in Marks and Standards.

## 5. Resit Categories

The resit categories of modules on this programme and an explanation of those categories can be found at:
