Overview of the department

The role of the Teaching Enhancement Unit (TEU) is to support innovation and excellence in teaching across DCU. TEU is a centralised service unit in the Academic Affairs portfolio which reports to the Dean of Teaching and Learning. It provides research-informed leadership in teaching and learning guided by DCU's Strategic Plan and the University's Teaching and Learning Plan. The TEU has two core functions.

Firstly, the TEU team is focused on strengthening staff capabilities to develop innovation, teaching excellence, and flexibility in delivering on the University's commitment to a transformative student

learning experience. It works closely with DCU's Faculties to identify teaching development needs and design professional development opportunities for both individual staff and programme teams. Some of this work involves supporting programme-wide curriculum design in strategic areas of development, such as the DCU Futures and ECIU University initiative. These initiatives strongly emphasise new models of Challenge-based Learning (CBL) and the transformative potential of new digital technologies in the teaching and learning experience. The TEU also manages teaching awards and DCU's commitment to the AdvanceHE Teaching Fellowship Programme. In supporting academic development, the TEU aims to foster strong disciplinary and interdisciplinary communities of practice that help to share best practices in teaching, learning and assessment.

Secondly, the TEU manages and supports DCU's virtual learning environment (VLE) known as Loop. This work involves managing a helpdesk service for both technical and teaching support, including more advanced pedagogical guidance on harnessing the potential of new learning technologies. The TEU team is also actively involved in national professional development initiatives supported by the National Forum for the Enhancement of Teaching and Learning in Higher Education and related professional bodies. They are well-known nationally for their work in supporting teaching enhancement and for their leadership in using new digital technologies for teaching, learning and assessment.
