

Applications are invited from suitably qualified candidates for the following position:

Centre Manager
Insight SFI Research Centre for Data Analytics
Professional 7
Fixed Term Contract up to 30th June 2025

Dublin City University

Dublin City University (DCU) is a leading innovative European University. It is proud to be one of the world's leading Young Universities and is among the world's top 2% globally. DCU is known as Ireland's University of Impact, with a mission to 'transform lives and societies' and focuses on addressing global challenges in collaboration with key national and international partners and stakeholders.

DCU has over 20,000 students in five faculties spread across three academic campuses in the Glasnevin-Drumcondra area of North Dublin. Thanks to its innovative approach to teaching and learning, the University offers a 'transformative student experience' that helps to develop highly sought-after graduates. DCU is currently No. 1 in Ireland for Graduate Employment Rate, and for graduate income (CSO).

DCU is a research-intensive University and is home to a number of SFI-funded Research Centres. The University participates in a range of European and international research partnerships. DCU is also the leading Irish university in the area of technology transfer as reflected by licensing of intellectual property.

As a 'People First' institution, DCU is committed to Equality, Diversity and Inclusion - a University that helps staff and students to thrive. The University is a leader in terms of its work to increase access to education, and is placed in the world's Top 10 for reducing inequalities in the Times Higher Education Impact Rankings.

The Insight SFI Research Centre for Data Analytics

The Insight SFI Research Centre for Data Analytics (<http://www.insight-centre.org>) is an SFI funded Research Centre which brings together researchers from University College Dublin, NUI Galway, University College Cork, and Dublin City University, as well as other partner institutions, Trinity College Dublin (TCD), University of Limerick (UL), Maynooth University (MU) and Tyndall National Institute. It creates a critical mass of more than 400 researchers from Ireland's leading ICT clusters to carry out research on a new generation of data analytics technologies in a number of key application domain areas, such as Health and Human Performance, Smart Communities, Internet of Things, Enterprise and Services and Sustainability and Operations.

The €150m Centre is funded by Science Foundation Ireland and a wide range of industry and European Union partners. Insight's research focus encompasses a broad range of data analytics technologies from machine learning, decision analytics and social network analysis to linked data, recommender systems and the sensor web. Together, with more than 220 partner companies, Insight researchers are solving critical challenges in the areas of Connected Health and the Discovery Economy.

The Role

The Insight Centre at Dublin City University now wishes to recruit a Site Manager on a fixed-term full-time contract basis who will lead the delivery of the contractual targets to reach the Centre's financial and KPI targets and will lead and develop a quality and responsive Insight operations team. The Operations team at DCU will efficiently manage all operational functions of the Centre including: finance, human resources, reporting, system administration and software and IP management. In addition, the Site Manager will form part of the larger Site Managers group, working closely with Site Managers at other Insight sites in order to achieve Insight's vision and ambition.

*This position is based at Dublin City University. The post-holder will report to the Centre Director at DCU.

Principal Duties and Responsibilities

Please see attached job description for principal duties and responsibilities of the role.

Qualifications, Skills and Experience Required

The successful candidate will have 10 years professional experience in technical, operational and team management and ideally will have a Ph.D. in a relevant scientific/engineering/computer science discipline.

Essential Criteria:

Excellent team leadership skills demonstrated in a research environment (preferably with significant experience in both academic and commercial settings).

- Proven experience in sustaining and developing relationships with research, industry and funding partners. The Centre Manager must be able to identify and build new industrial, research and strategic partners.
- A strong communicator, particularly well-equipped with listening, influencing and negotiating. The successful candidate must be able to present to both current and potential industry partners at Senior Management, Research & Development and Sales and Marketing levels.
- A broad knowledge of the IT area, ideally with familiarity with the area of data analytics
- An ability to network and influence at all levels.
- A focused strategic vision for the Centre.
- Must be able to work with the Centre Director in building a long-term vision for Insight@DCU and all its research and industry partners
- An openness to innovate and implement change.
- Able to decide on the appropriate action, issue directives and monitor subsequent performance.

Desirable Criteria:

In addition to the above requirements, it is also desirable that candidates have the following:

- Hold a master's degree or PhD in a related area such as Life Sciences, Engineering or Computing.
- Have experience in managing and coordinating funding/revenue and project acquisition through industry, and/or national and international funding agency collaboration would be beneficial.

Skills:

- Knowledge of relevant academic structures and the Higher Education sector
- A strong communicator, particularly well-equipped with listening, influencing, and negotiating. The successful candidate must be able to present to both current and potential industry partners at Senior Management, Research and Development and Sales and Marketing levels.
- Strong analytical, administrative and interpersonal skills with good judgement skills and an ability to influence and persuade at the highest level is essential.
- Proven ability to manage multiple simultaneous proposals
- An understanding and appreciation of the IP issues arising in the context of academic research and related to computer software and algorithms.
- High level of proficiency in IT packages including MS Office, MS Project etc.

Essential Training

The post holder will be required to undertake the following mandatory compliance training: Orientation, Health and Safety, Research Integrity and Intellectual Property and Data Protection training. Other training may need to be undertaken when required.

Salary Scale: Professional 7 - €62,167 - €99,897 salary scales.

**Appointment will be commensurate with qualifications and experience will be made on the appropriate point of the salary scale, in line with current Government pay policy.*

Closing date: Thursday 23rd February 2023.
