

Applications are invited from suitably qualified candidates for the following position:

School:	School of Nursing, Psychotherapy and Community Health
Post title	Postdoctoral Researcher Memory-Making for Families of Children with Life-Threatening Conditions Receiving Palliative Care at Home.
Level on Framework	Level 1
Post duration	2-year Fixed Term Contract (FTE)

Dublin City University

Dublin City University (DCU) is a leading innovative European University. It is proud to be one of the world's leading Young Universities and is among the world's top 2% globally. DCU is known as Ireland's University of Impact, with a mission to 'transform lives and societies' and focuses on addressing global challenges in collaboration with key national and international partners and stakeholders.

DCU has over 20,000 students in five faculties spread across three academic campuses in the Glasnevin-Drumcondra area of North Dublin. Thanks to its innovative approach to teaching and learning, the University offers a 'transformative student experience' that helps to develop highly sought-after graduates. DCU is currently No. 1 in Ireland for Graduate Employment Rate, and for graduate income (CSO).

DCU is a research-intensive University and is home to a number of SFI-funded Research Centres. The University participates in a range of European and international research partnerships. DCU is also the leading Irish university in the area of technology transfer as reflected by licensing of intellectual property.

As a 'People First' institution, DCU is committed to Equality, Diversity and Inclusion - a University that helps staff and students to thrive. The University is a leader in terms of its work to increase access to education, and is placed in the world's Top 10 for reducing inequalities in the Times Higher Education Impact Rankings.

Background & Role

Applications are invited from suitably qualified individual for this 2-year fixed term FTE position as a postdoctoral researcher at Dublin City University. This position is funded by the Health Research Board Applied Partnership Awards. The post offers an exciting opportunity to join an interdisciplinary and inter-institution partnership between academic-researchers at DCU and knowledge-users at Barretstown Children's Charity to co-produce knowledge that can have a real and sustainable positive impact on the lives of children and their families living with serious illness. This research aims to adapt a digital storytelling memory-making intervention from the USA to the Irish context and determine the feasibility and acceptability of the adapted intervention.

Principal Duties and Responsibilities

Please refer to the job description for a list of duties and responsibilities associated with this role.

Minimum Criteria

Applicants should hold a PhD in a health or other relevant discipline (e.g., social science, psychology, allied health, health services research). In addition, it is desirable that the individual has:

- experience in effective networking and building strong working relationships within and across organisations, disciplines and professions;
- excellent communication, interpersonal and organisational skills, be able to take initiative and work under pressure to tight deadlines, and have the ability to work effectively as part of an interdisciplinary team;
- well-developed qualitative and quantitative research skills and a publication track record;
- experience and knowledge of psychosocial intervention mapping, design, and development is also desirable;
- an awareness of the ethos of palliative care and an ability to undertake research with appropriate sensitivity in the area of children's palliative care;
- experience of liaising with multi-stakeholders, and knowledge of engaged research and coproducing with public and patient involvement;
- strong leadership and influencing skills with expertise in project management and experience of working with communities and health service users.

Candidates will be assessed on the following competencies:

Discipline knowledge and Research skills – Demonstrates knowledge of a research discipline and the ability to conduct a specific programme of research within that discipline

Understanding the Research Environment – Demonstrates an awareness of the research environment (for example funding bodies) and the ability to contribute to grant applications

Communicating Research – Demonstrates the ability to communicate their research with their peers and the wider research community (for example presenting at conferences and publishing research in relevant journals) and the potential to teach and tutor students

Managing & Leadership skills - Demonstrates the potential to manage a research project including the supervision of undergraduate students

Essential Training

The postholder will be required to undertake the following essential compliance training: Orientation, Health & Safety and Data Protection (GDPR) and all Cyber Security Awareness Training. Other training may need to be undertaken when required.

Salary Scale:

IUA Postdoctoral Researcher Salary Scale – €42,033 (Point 1)

Appointment will be commensurate with qualifications and experience and in line with current IUA Guidelines.

Closing date: Sunday, 18th June 2023

Interview panel is scheduled for 30th June 2023
