Applications are invited from suitably qualified candidates for the following position

**Assistant Professor in Chemistry**  
**School of Chemical Sciences**  
**Faculty of Science and Health**  
**Fixed term 3-year contract**

**Introduction**

Dublin City University ([www.dcu.ie](http://www.dcu.ie)) is a young, dynamic and ambitious university with a distinctive mission to transform lives and societies through education, research and innovation. We are a research-intensive, globally-engaged institution, distinguished by both the quality and impact of our graduates, and focus on the translation of knowledge into societal and economic benefit. Excellence in education and research activities has led to DCU’s consistent presence in the rankings of the world’s top young universities.

Over its relatively short history has developed a strong reputation nationally and internationally for pioneering innovations in higher education. The university is embarking on a period of significant investment in learning innovation across all of its Faculties. This initiative will help us transform the learning experience of undergraduate students at DCU, reconceptualizing learning opportunities, creating authentic connections between the classroom and enterprise, and embedding digital literacies, disciplinary competencies and transversal skills required to truly future-proof our graduates for the rapidly changing workplace. DCU is joined in this project by a strong consortium of enterprise partners, representing key employment sectors in the Irish economy and with a strong presence in DCU’s primary catchment area. This programme of innovation is funded under the Irish government’s Human Capital Initiative (HCI) supported by the National Training Fund. It will deliver on the ambitions we have to reimagine undergraduate curricula and to embed innovative pedagogies, enhanced use of technology and deep industry engagement.

**School of Chemical Sciences**

The School of Chemical Sciences, is one of Ireland's most progressive and highest achieving Schools with outstanding facilities, housed within a modern and dynamic city campus. Our goal is to develop graduates with the ability to critically evaluate, and then to solve, chemical and pharmaceutical problems, preparing the highest quality graduates capable of meeting the challenges of modern industry and research. The School is highly successful at attracting large scale research funding, with our researchers having roles within nationally significant university/industry collaborative initiatives and European funded Integrated Training Networks. The School of Chemical Sciences is one of the leading academic schools within DCU. The School is ranked in the top 350 chemistry schools/departments in the world (QS Rankings), a reflection of the School’s ambitious research activities and its undergraduate/postgraduate degree programmes. These programmes include Common Entry into Chemical Sciences, the School’s two core undergraduate programmes, namely the BSc in Analytical Science and the BSc in Chemical and Pharmaceutical Sciences as well as the BSc in
Environmental Science & Technology and BSc in Science Education. The School is currently expanding the number of undergraduate degree courses to include Chemistry with Artificial Intelligence.

Duties and Responsibilities
Please refer to the job description for a list of duties and responsibilities associated with this role.

Candidate Requirements
Applicants for this position must have a Ph.D. in chemistry or a related discipline with a track record of research in analytical chemistry that includes corresponding and senior/first author publications and an education background that can deliver analytical chemistry related modules to our core undergraduate/postgraduate programmes. The successful candidates should ideally have a minimum of three years’ relevant post-doctoral experience or industrial experience and have demonstrated teaching experience at undergraduate and/or postgraduate level. The successful applicants will also have demonstrated potential to establish an independent research programme and attract research funding from competitive research funding schemes and/or industry. Candidates should demonstrate excellent interpersonal and communication skills consistent with the highest quality of teaching and learning, together with evidence of successful teamwork and a collegial approach.

Mandatory Training
The postholder will be required to undertake the following mandatory compliance training: Orientation, Health & Safety and Data Protection (GDPR). Other training may need to be undertaken when required.

Salary Scale.
Assistant Professor (Above bar) €54,163 - €86,182*
*Appointment will be commensurate with qualifications and experience, and will be made on the appropriate point of the relevant salary scale in line with current Government pay policy.

Appointment will be commensurate with qualifications and experience and in line with current Government pay policy

Closing date: Thursday 24 June 2021

Further Information
More information on the School of Chemical Sciences and its programmes can be found at: www.dcu.ie/chemistry
