A public body is a public service body with specific scientific or cultural infrastructure that is integral to the conduct and completion of the proposed research. If a public body or HEI is an eligible research performing organisation (RPO), it is not an eligible Enterprise Partner under this scheme. A list of eligible RPOs is provided on the Council’s website.

NGOs can take various forms (national/international charities, voluntary community groups, etc.) and can be located/working in any country. For those requesting a waiver, they must have a base in the Republic of Ireland and be listed on Ireland’s Public Charities Register.

2. OVERVIEW OF THE AWARD

2.1. The Irish Research Council’s Enterprise Partnership Scheme (Postgraduate) is a national initiative designed to link excellent early-career researchers with enterprise (broadly defined). The scheme co-funds awardees to bring research talent into an enterprise in cooperation with a HEI. Enterprise partners co-fund excellent researchers who dedicate their time to a specific research project related to the mission of the organisation. By the end of the project, the researcher will have gained important
workplace skills and a degree by research. The enterprise benefits from research talent and ideas in an area closely aligned with its strategic interests.

3. ELIGIBILITY REQUIREMENTS

3.1. All applicants:

3.1.1. must have completed an honours bachelor’s, or the equivalent, degree by 31 June 2021. If an awardee does not have a first-class or upper-second-class honours bachelor’s, or the equivalent, degree, they must possess a master’s degree. The Council’s determination of an applicant’s eligibility on these criteria is final;

6.13. The HEI is responsible for ensuring that awardees have access to effective procedures for resolving problems arising from the administration or supervision of their scholarship.

6.14. In the event of an awardee experiencing serious problems with supervision or any other academic matter that cannot be resolved at the department level, they should follow the HEI’s own grievance procedures. Should these problems prove to be intractable, the awardee should inform the Council directly.

6.15. The HEI should ensure that a clear and reasonable policy on annual leave entitlement exists and that this is made known to the awardee at the start of their scholarship.

6.16. Should an awardee be unable to pursue their project in accordance with these Terms and Conditions, the awardee and their supervisor must inform the Council and the relevant office(s) in their HEI. The awardee must do this no later than two weeks of such a situation arising. The Council will have regard to the usual conventions of the awardee’s HEI; however, it reserves the right to suspend or terminate the scholarship.

6.17. Awardees are required to provide the Council with their ORCID identifier (ORCID iD)\textsuperscript{5} for tracking of research outputs and long-term careers beyond the funding term.

\textsuperscript{5} https://orcid.org
This will involve the awardee authorising the Council’s access, via the online system, to their ORCID record for authenticating, displaying and other best practice guidelines.

7. LOCATION OF THE SCHOLARSHIP

7.1. Awardees must:

7.1.1. be full-time students registered with an eligible HEI in Ireland;

7.2.1. attending courses relevant to the awardee’s training. The Council will not normally sanction such courses longer than four weeks in duration;
7.2.2. spending part of the academic year engaged in research in Ireland or abroad.

7.3. In order to take up such an opportunity of more than four weeks in duration, the awardee must apply in advance to the Council for permission and include the written support of their supervisor and enterprise mentor. The Council will not be liable for any additional fees or expenses associated with such opportunities. Furthermore, travel and personal accident insurance cover while taking up such an opportunity is a matter for agreement between the awardee and their HEI. Information regarding any research-related trips must be documented as part of the required progress reporting.

7.4. While awardees are expected to complete their research at the HEI as originally proposed in their application, is it recognised that exceptional circumstances may call for a change of location or supervisor. In these cases, the awardee and proposed new supervisor and/or HEI must write to the Council stating the case for change. The Council will examine the submission on its merits and respond with a decision on whether funding will continue in the new circumstances.
8. FINANCIAL ADMINISTRATION AND AUDIT

8.1. While the award is made to the individual awardee, the scholarship fund will be administered through the appropriate office within their HEI.

8.2. Subject to compliance with these Terms and Conditions and to receipt of satisfactory progress reports, the scholarship fund will be paid to the awardee’s HEI, quarterly in advance. It is the HEI’s responsibility to coordinate payment of the scholarship fund to the awardee in a timely manner.

8.8. Funding will only be provided for the research project as presented in the application. The written consent of the Council must be sought in advance of any significant departures from the research project during the funding term. Such requests may be independently peer-reviewed and the Council’s decision on whether to approve the proposed change(s) will be final.

8.9. Funds may only be carried forward from the previous year of the scholarship under the eligible direct research expenses heading. It will not be possible to carry forward funds awarded for the stipend or fee contribution.

8.10. The Council reserves the right to ask for confirmation from the HEI’s external auditors for the following:

8.10.1. that the annual accounts of the HEI are up to date and have been approved by the auditors without qualification;

8.10.2. that the management letter from the auditors raised no matters that did or could significantly affect the administration of a scholarship awarded by the Council;

9.2. Both the awardee and supervisor, together with the HEI and Enterprise Partner, will be required to submit a comprehensive annual progress reports and a financial report unless otherwise stated. Failure to supply these reports will result in payment of the scholarship being suspended until such a time as they are received.

9.3. If an awardee does not submit a progress report on time or if the Council receives an unsatisfactory progress reports or evaluation, the award holder will be informed of the unsatisfactory report. The award holder will be asked to resubmit an amended report. The Council reserves the right to convene a review committee to evaluate the fellowship in accordance with the deliverables outlined in the original proposal.

9.4. If asked to do so, the awardee and their supervisor must attend to provide an account of the progress or outcomes of the award.

9.5. If unsatisfactory progress reports are submitted, the Council reserves the right to convene a review committee to evaluate the scholarship in accordance with the deliverables outlined in the original proposal. If asked to do so, the awardee and their supervisor must attend to provide an account of the progress made to date. The Council will then provide feedback to the awardee indicating that the scholarship be either:

9.5.1. progress satisfactory in all respects and continuation of award confirmed;
9.5.2. progress deficient in some areas and specific actions for resolution indicated with a defined time period;
9.5.3. A report indicates evidence of unsatisfactory progress and the award may be suspended or terminated.

10. ADDITIONAL DUTIES OUTSIDE THE REMIT OF THE SCHOLARSHIP

10.1. Awardedees must engage full-time in research during the funding term and not assume any other duties that would adversely affect their ability to engage in the scholarship on a full-time basis. The Council expects awardedees to complete the postgraduate degree for which they have been awarded funding within the funding term.

10.2. Teaching is an essential means for the structuring and dissemination of knowledge and should be considered valuable within the awardedee’s career. The Council permits awardedees to undertake such duties, including supervision, education provision and support activities, in the second and subsequent years of their degree, provided the following conditions are met:

   10.2.1. The awardedee obtains prior approval from their supervisor and retains a record of same;
   10.2.2. The additional duties do not exceed a total of 50 hours per academic term and do not adversely affect the awardedee in carrying out their research;
   10.2.3. The additional duties are relevant to the research funded by the scholarship and consistent with the Training and Career Development plan agreed by the awardedee and their supervisor.

10.3. Where awardedees undertake such teaching or other duties as listed above, they should be appropriately remunerated by their HEI. Any such payments will not affect the awardedee’s total amount of award. Compliance with Irish laws and regulations on taxation will be a matter for the awardedee, the HEI and the Office of the Revenue Commissioners. Contractual and remuneration matters in respect of additional duties are still a matter for agreement between the scholar and the HEI.

10.4. As regards remunerated work outside the host organisation, the awarded holder will be bound by the rules that apply to similar employees in their host organisation.

10.5. From time to time, the Council will require the awardedee to attend events or meetings as arranged by the Council.

11. ADDITIONAL AWARDS

11.1. An awardedee will not be eligible to hold a Council scholarship if during the funding term they are in receipt of another bursary or scholarship or a combination of other bursaries or scholarships with a total value greater than €16,000 per annum. This €16,000 limit per annum is inclusive of stipend, fees and research expenses.

11.2. Awardedees must inform the Council about the amount and source of any awards or bursaries obtained before or during the funding term. This information must also be recorded in the appropriate progress reports.
11.3. Should the awardee apply to another source for an additional award during the funding term, they must state as part of the application (whether or not they are required to do so) that they hold an Irish Research Council Enterprise Partnership Scheme Postgraduate Scholarship and notify the Council prior to submitting the application. The other funder(s) must agree that the Council scholarship can be held alongside the other award(s). In no circumstances will the Council involve itself in the decisions of other funding agencies.

11.4. The Council recognises that, from time to time, awards exceeding the €16,000 per annum limit may independently recognise the outstanding merit of an awardee. Awardees are advised that only in exceptional cases and on a case-by-case basis can such individual awards be held in conjunction with a Council scholarship. The acceptance of such awards during the funding term of the scholarship is subject to prior approval by the Council.

12. SUSPENSION OF THE SCHOLARSHIP

12.1. The Council expects awardees to complete their scholarship in a single continuous period and does not encourage the suspension of awards. Where suspensions are approved, total periods of suspension must not normally exceed one calendar year during the lifetime of the award.

12.2. Awardees may apply to the Council to suspend their award:

12.2.1. for reasons of an eligible career break; or
12.2.2. in order to undertake an internship, where such an internship contributes and is directly relevant to the research project, consistent with the training and career development plan, and does not exceed nine months in duration. Insurance cover in respect of participation in an internship is a matter for agreement between the awardee and their HEI.

The decision to grant a suspension is at the discretion of the Council. The award fund is not payable during such periods.

12.3. Awardees are entitled to suspend their award for a period of up to one calendar year for reasons of maternity. The scholarship fund is not payable during such periods. Awardees are referred to the Council’s Maternity Leave Policy, which is available here.

12.4. Additional registration or academic fees incurred by the awardee as a result of suspending their award are a matter for agreement between the awardee and their HEI. The Council will not be liable for any such additional fees.

---

6 Eligible career breaks include: maternity leave, paternity leave, adoptive leave, parental leave, prolonged sick leave, carer’s leave.
13. TERMINATION OF THE SCHOLARSHIP

13.1. The Council recognises that, for personal or professional reasons, an awardee may wish to terminate their scholarship prematurely. This action should not be taken without prior consultation with the Council.

13.2. Where the awardee intends to prematurely terminate their scholarship, the Council will require evidence of academic progress to the date of departure. In the event that the Council deems the awardee’s progress inadequate, the Council may pursue the awardee, HEI, or both for reimbursement of the amounts expended.

14. COMPLETION OF THE SCHOLARSHIP

14.1. Where an awardee submits a soft bound copy of their thesis for examination before the specified end date of the funding term, they must inform the Council in writing and cease drawing any remaining funds from their scholarship account at the end of the calendar month in which the soft bound thesis was submitted if no longer undertaking full-time activities on their award. They may be allowed to continue drawing funds from their funding account if undertaking full-time activities on their award until the original end date of the award or such a time as they have submitted the hard-bound copy of their thesis, if it occurs prior to the end date of the award. Where the hard-bound copy of the thesis is submitted before the end of the funding term, the award holder must inform the Council immediately whereupon funding to the awardee will cease.

14.2. Awardees are required to inform the Council of the successful completion of their postgraduate degree in writing. The Council is also entitled to obtain this information directly from the awardee’s HEI.

14.3. The Council periodically carries out a destination survey of its awardees. The awardee shall agree to cooperate in responding to this survey.

14.4. Where an awardee’s contact details change following completion of their award, they should provide updated details via the online system.

15. RESPONSIBILITIES OF THE SUPERVISOR

15.1. The Council requires awardees and their supervisors to have regular contact. Primary supervisors must be based at the same host institution as the awardee.

15.2. It is the responsibility of the awardee’s supervisor to ensure that if the awardee leaves their HEI or is not dedicating sufficient time or effort to the scholarship, the Council is informed immediately.
16. **RESPONSIBILITIES OF THE ENTERPRISE PARTNER**

16.1. The Enterprise Partner will nominate an enterprise mentor from the organisation to work with the awardee and their supervisor, to offer advice and to create a link with the Enterprise Partner’s activities. Contact should be maintained between the enterprise mentor and the awardee throughout the duration of the scholarship.

16.2. The Enterprise Partner and enterprise mentor are permitted to support more than one application to the Enterprise Partnership Scheme provided that there are clearly distinct research projects and that all awards will be supported in the event of multiple successful applications.

16.3. In the event of an Enterprise Partner changing its name or merging with another entity, the contractual obligation will remain as is.

16.4. Where feasible and appropriate, the Enterprise Partner is encouraged to provide a placement period for the awardee at its facilities. This will be agreed with the Council and the supervisor before the scholarship commences. The Enterprise Partner is expected to cover the cost of all expenses (e.g. travel and accommodation costs) incurred by the awardee as a result of periods spent on placement with the Enterprise Partner. The awardee should not be out of pocket due to undertaking such a placement.

16.5. The contribution from the Enterprise Partner will constitute one-third of the total value of the scholarship of €8,000 per annum of their funding term. This forms part of the scholarship and is not additional funding. See the indicative table below for the total contributions for eligible funding terms. The Enterprise Partner is obliged to contribute for the full duration of the funding term, as per the application, in annual payments.

16.6. The first annual invoice will be issued to the Enterprise Partner for payment prior to commencement of the award. Subsequent invoices will be issued annually over the lifetime of the award. The Enterprise Partner’s contribution will be paid to the Council by electronic transfer within 30 days of receipt of invoice. Failure to do so will result in award offers being revoked or awards being suspended with one month’s notice.

16.7. The transfer of scholarship funds from the Council to the HEI is contingent upon the Council’s receipt of the Enterprise Partner’s contribution within the period in which it is due. It is not permissible for parties to request that the Council contributes to offers or awards where there are issues with payments from the Enterprise Partner.

16.8. Eligible NGOs may avail of a waiver for the first year Enterprise Partner contribution for applications to the Enterprise Partnership Scheme 2021. To be eligible for this waiver, NGOs are to seek pre-approval from the Council by **31 December 2020**. Formal members of Dóchas (full membership and associate) and members of the Wheel who fit the definition in 1.13 may apply for this waiver. The organisation must have a base in the Republic of Ireland and be listed on [Ireland’s Charity Register](#).

16.9. Where an Enterprise Partner on an application is also an existing or expired Enterprise Partner on this or a previous call of the Enterprise Partnership Scheme or an existing or expired Employment Partner on the Employment-Based Programme and has outstanding funds payable to the Council or has had significant periods of time (in the region of two months) where there have been overdue payments or reporting requirements, the Council may decline the organisation for participation in the current call or to revoke new offers or awards.

17. ETHICS AND QUALITY ASSURANCE

17.1. The Council is not in a position to award funding for research activity under any of the following prohibited areas:

17.1.1. human cloning for reproductive purposes;
17.1.2. genetic modification of human beings that could make such changes heritable (with the exception of research relating to cancer treatment of the gonads, which may be funded);
17.1.3. creation of human embryos solely for the purpose of research or for the purpose of stem cell procurement, including by means of somatic cell nuclear transfer.

17.2. The HEI is responsible for ensuring that ethical issues relating to an awardee’s research are identified and brought to the attention of the relevant approval or regulatory body. Approval to undertake the research must be granted before any work requiring approval begins. Ethical issues should be interpreted broadly and may encompass, among other things, relevant codes of practice; the involvement of human participants, tissue or data in research; the use of animals; research that may result in damage to the environment; and the use of sensitive economic, social or personal data.

17.3. Where required for the research project, awardees must show evidence that they have obtained the appropriate ethical approval to carry out their research project from
the relevant approval or regulatory body at their HEI or organisational ethics committee, or the equivalent body in the Enterprise Partner (as appropriate). Written evidence of such approval is required by the Council before the award can commence. Where there is a delay to providing this evidence, consent must be sought from the Council before the award may commence. The awardee must not commence any activities for which approval is required without this evidence.

17.4. The HEI is responsible for ensuring that the awardee’s research complies with all national and international regulation requirements governing the use of sensitive materials or processes, for example radioactive isotopes, ionising radiation, laboratory animals or other animals, pathogenic organisms, genetically manipulated organisms, toxic and hazardous substances, and research on human subjects and human embryos.

17.5. The HEI is responsible for the local implementation of the Quality & Qualifications Ireland/Irish Universities Quality Board National Guidelines: Good Practice in the Organisation of PhD Programmes in Irish Universities and for endorsing the appointment of an appropriate supervisor to support and guide the awardee’s work.

17.6. The awardee must be familiar with national guidelines such as Quality and Qualifications Ireland’s Research Degree Programme Policy and Criteria.

17.7. The awardee, Enterprise Partner and HEI must follow good practice on data protection, management and security. The Council cannot be held legally liable for interference by any third party.

18. RESEARCH INTEGRITY

18.1. The HEI and the Enterprise Partner must ensure that the highest quality of research conduct is maintained and that there are formal, fair and effective processes in place for the investigation of allegations of research misconduct if they arise. The systems in place to manage research misconduct should align with the basic principles that underpin all research integrity and good practice as outlined in the national policy statement on Ensuring Research Integrity in Ireland and The European Code of Conduct for Research Integrity.

18.2. The HEI and the Enterprise Partner are required to report to the Council all findings of any substantiated case of research misconduct arising from a Council-funded research project.

18.3. Awardees are expected to undertake training or courses related to Research Integrity available to them at their HEI and Enterprise Partner.

18.4. The Council reserves the right to check applications for plagiarism and excessive duplication. Where this is deemed to be the case by the Council, applications will be deemed ineligible, award offers will be withdrawn, or active awards will be terminated with one month’s notice. Plagiarism is the appropriation of another
person’s ideas, processes, results, or words without giving appropriate credit. It will be deemed that excessive duplication has arisen when significant portions of multiple applications to the Council or any funding agency are similar or identical in content.

19. KNOWLEDGE TRANSFER

19.2. The HEI and Enterprise Partner must establish rules and procedures for protecting and managing any IP arising during the award. These rules and procedures must be in accordance with national guidelines.

19.3. In line with the national policy, foreground IP generated will be owned by the HEI. In exceptional circumstances, preferential terms for the Enterprise Partner may be negotiated if the HEI is of the view that the interest of Ireland is best advanced through the utilisation of this option.

19.4. The Council requires that background IP is captured clearly by the HEI and the Enterprise Partner prior to initiation of the project, so that there is clarity on who has access to background IP and declarations made on basis of same. Good practice through the maintenance of notebooks and records must be adhered to.

19.5. The Council does not make any claim to IP arising from the award.

19.6. A Research Agreement (including reference to IP rights and confidentiality) must be in place between the HEI and the Enterprise Partner before the award can commence. There is a template agreement at Appendix III of these Terms and Conditions. The terms of any such agreement must not conflict with those outlined in this document.

19.7. A copy of the Research Agreement between the HEI and the Enterprise Partner must be made available to the Council.

19.8. When a potential or perceived conflict of interest arises between any participant, this must be disclosed in the application.

20. OPEN ACCESS

20.1. All scholarly publications resulting from publicly funded research are expected to be openly available by default as per the National Framework on the Transition to an Open Research Environment. Awardees are expected to adhere to the Council’s policy relating to the placement of research publications in open access repositories.

---

7 A conflict of interest arises when an individual holds a direct or indirect personal interest which, in the opinion of a reasonably-informed and well-advised person, is sufficient to call into question the independence, impartiality and objectivity that the individual is obliged to exercise in the performance of his/her duties. Conflicts of interest may be financial, non-financial or both.
which is available here. It is accepted that there will be recognised instances in which this might not be feasible; in these cases, the awardee should contact their supervisor and Enterprise Mentor for advice.

21. SEX/GENDER DIMENSION

21.1. The Council supports gender equality in the research and innovation system. The Council’s Gender Strategy & Action Plan 2013–2020 is available here. All awardees are required to give careful consideration to whether there is a potential sex or gender dimension that may arise in the course of their research.

21.2. Where the awardee is involved in the organisation of conference, networking or dissemination panels connected with their research project, due regard should be given to gender balance within any such panel(s).

22. ACKNOWLEDGEMENT OF COUNCIL FUNDING

22.1. All publicity, including interviews, email signatures, letterheads, office signs, public lectures, publications, monographs, print materials, online materials, press releases, television and radio advertisements, formal social media, websites, film, and video/audio recordings associated with or arising from the research undertaken by the awardee must contain acknowledgement of funding received from the Council. Where possible, the Council’s logo should be included in any such acknowledgement. All publicity must also contain acknowledgement of funding received from the Enterprise Partner unless otherwise requested.

22.2. Awardees are expected to adhere to the Council’s policy relating to the acknowledgement of its funding at all times. The policy is available here.

23. DIGNITY IN THE CONDUCT OF RESEARCH

23.1. The Council supports a research system in which individual researchers are enabled to reach their full potential at all stages of their career. Awardees and their supervisors are entitled to carry out their research free from any form of harassment, victimisation, or bullying. HEIs have the responsibility to ensure an appropriate work environment and to deal with any complaints or issues speedily, in line with agreed grievance procedures. The Council’s full statement on dignity in the conduct of research is available here.

23.2. All Council staff are entitled to be treated with courtesy and respect at all times and, accordingly, are encouraged to report any instances of infractions to management. In cases where staff experience abusive or inappropriate behaviour, the Council reserves the right to report any such behaviour to the relevant personnel in the HEI or other organisation connected with the individual.
APPENDIX I STRUCTURED PHD PROGRAMME

The following are key characteristics of a structured PhD programme in Irish HEIs. Such programmes may involve inter-institutional collaboration:

- The core component of a structured PhD programme is the advancement of knowledge through original research; at the same time the structured PhD is designed to meet the needs of an employment market that is wider than academia;

- It provides a high-quality research experience, training and output consistent with international norms and best practice;

- A structured PhD programme, in support of the original research activity, must include the following elements:
  - a formalised integrated programme of education, training and personal and professional development activities;
  - the development of discipline-specific knowledge, research skills and generic/transferable skills;
  - declared outcomes and graduate attributes in line with national and international best practice;

- Supervision is provided by a principal supervisor(s), normally with a supporting panel approved by the institution;

- Progress to completion is formally monitored against published criteria and supported by formal institutional arrangements in line with national and international best practice;

- Successful completion and examination of the research thesis is the basis for the award of the PhD degree. Professional doctorates are not excluded from the consideration of a structured PhD definition; alternative forms of theses are also acceptable;

- Appropriate placements, rotations and assignments across wide sectors of the economy are encouraged for inclusion as part of the structured PhD programme.
APPENDIX II EXPENSES

- Only vouched expenses incurred in carrying out the research project during the agreed funding term are permissible.
- These may include, but are not limited to:
  > materials and consumables;
  > equipment costs;
  > software and hardware critical for the proposed research\(^8\);
  > pay-as-you-go access to national research infrastructures;
  > archival research costs;

- The HEI must ensure proper financial management of the award and accountability for the use of public funds. The HEI should also ensure that all unspent funds are returned to the Council at the end of the funding term. The Council's rules on eligible expenses must be followed when different from institutional rules.
- Every effort must be made to ensure that travel, where used, is economical. Requests must take regard of institutional norms (e.g. public transport requirement where possible) and civil service rates must be used.

Disclosure in accordance with legal obligations

(a) inform the Disclosing Party of the proposed disclosure as soon as possible, in any event, no later than five (5) business days after becoming aware of the proposed disclosure; and

(b) cooperate with the Disclosing Party’s reasonable, lawful efforts to resist, limit or delay such disclosure (at the cost and expense of the Disclosing Party).

Disclosure of any Confidential Information pursuant to any such order or requirement shall not be deemed to render it non-confidential and the Receiving Party’s obligations with respect to such Confidential Information shall not be changed or lessened by virtue of any such disclosure, unless such disclosure results in one or more of the exceptions listed in Clause Error! 9.2 The Publishing Party shall submit its proposed publication in writing to the Reviewing Party at least 30 days before submitting it for publication.

9.3 If the Reviewing Party believes that delay is needed in order to seek patent or similar protection for any of the Reviewing Party’s Background IP or any Foreground IP, the Reviewing Party may by giving written notice to the Publishing Party require the Publishing Party to delay the proposed publication for a maximum of 90 days or other such time as both Parties may agree, or until any affected IP is protected, whichever is the sooner.

9.4 All Foreground IP shall be treated as Confidential Information belonging to the Enterprise Partner. The Reviewing Party may, by giving written notice to the Publishing Party, require the removal of any of the Reviewing Party’s Confidential Information from the publication.

9.5 If the Publishing Party does not receive a written objection from the Reviewing Party within 30 days of submission of notification of publication, then permission to publish shall be deemed to have been given.

9.6 The Scholar must receive written approval from the Supervisor and the Enterprise Partner to proceed with the publication.

9.7 Notwithstanding the foregoing provisions of this Clause 9, nothing in this Agreement shall preclude the Scholar from including results of the Project and the Foreground Intellectual Property in any thesis or other dissertation for a doctoral or other degree (a “thesis”) or from following procedures for examination and for admission to postgraduate degree status provided that:-

10.3 Only the Scholar has rights of appeal where such academic regulations are applied.

10.4 **Entitlement to enter the contract.** Each Party warrants to the other that it has full power and authority under its constitution and has taken all necessary actions and obtained all authorisations, licences, consents and approvals, to allow it to enter into this Agreement.

10.5 **No other warranties.** Neither Party warrants or undertakes that any result or outcome, whether stated in this Agreement or not, shall be achieved, be achievable or be attained at all or by a given Completion Date or any other date, nor does either Party give any warranty that the content or use of any results, IP, reports, information or other materials provided in connection with this Agreement will not constitute or result in any infringement of third-party rights.

12. **Termination**

12.1 This Agreement shall continue until the earlier of
