

Applications are invited from suitably qualified staff for the following position:

Research Assistant (Citizen Science Officer)

DCU Water Institute

Part Time – Fixed Term Contract 12 Months

Dublin City University

Dublin City University www.dcu.ie is a research-intensive, globally-engaged, dynamic institution that is distinguished by both the quality and impact of its graduates and its focus on the translation of knowledge into societal and economic benefit. DCU prepares its students for success in life and in the workplace, by providing a high-quality, rounded education appropriate to the challenges and opportunities of the 21st century. As Ireland's University of Enterprise and Transformation, DCU is characterised by a focus on creativity, innovation and entrepreneurship and a track-record of effective engagement with various external stakeholders, including the public sector, the voluntary sector, and enterprise sector. The university fosters creativity, innovation and enterprise, and collaboration with commercial, technological, social, arts and cultural enterprises. DCU's Graduate Attributes scheme specifically encourages students to be creative and enterprising, solutions-oriented and globally engaged. Excellence in its education and research activities has led to DCU's consistent position in the rankings of the world's top young universities and its recent recognition by The Sunday Times as Ireland's University of the Year 2021. DCU now hosts over 18,000 students across five faculties.

DCU Water Institute

The Water Institute is a cross-faculty initiative of research and education on water. It aims to work with all stakeholders – a quadruple helix of academia, industry, agency and society in its research and development work. Through research and capacity building, the WI develops solutions to national and global problems in water. We specialize in technology developments across science, engineering and computer science domains with strong communications focus and policy and business drivers. These areas are reflected in our academic members in DCU – across all faculties of the University.

Background & Role

The DCU Water Institute is addressing the need for water quality citizen science programmes in Ireland. The Water Institute has secured a citizen science water quality monitoring project (Rural and Urban locations) as part of this and therefore requires the role of a citizen science officer.

The citizen science officer will join a multidisciplinary research team working towards delivering this project whilst promoting the integral role citizen science plays in society. The citizen science officer will work closely with the Water Institute team members and all stakeholders such as the leading industry partners, citizen scientists, and the university departments.

Duties and Responsibilities
