

Appointment of Executive Director to DCU's Cleantech Innovation Campus

DCU is delighted to announce that **Ronan Furlong** (pictured) has been appointed as Executive Director of DCU's recently launched Cleantech Innovation Campus. Ronan was previously Director of Operations for The Green Way - Dublin's cleantech cluster, which DCU founded alongside Dublin City Council, Dublin Airport Authority, Dublin Institute of Technology and other regional stakeholders. In the Green Way, Ronan was responsible for strategy, marketing and business development, as well as the facilitation of major industry led cleantech demonstration projects such as Glen

Dimplex's roll out within the city of their new smart electric thermal storage innovation 'Quantum'.

As Executive Director of the new innovation campus, Ronan will be responsible for the physical refurbishment and sustainable development of the campus, the marketing and letting of existing and new facilities on site, the development of university-industry collaborations and the establishment of a like-minded community of Cleantech companies, researchers, institutes, students and external stakeholders, all of whom will be focussed on the long term development of the campus as Ireland's centre of excellence for Cleantech research, development and innovation.

Ronan is a recent graduate of DCU's Certificate in Sustainable Energy Finance, has a Bachelor's degree in Architecture from UCD, as well as a Diploma in Construction Project Management and an MBA from Trinity College.

We wish Ronan every success in his new position!
