## FOREWORD

The impetus for the formulation of this Governance Code comes from a number of sources. The emergence of the worldwide governance movement and the long tradition of formal university governance structures had already been reflected in The Irish Universities Act 1997. The Act laid down a new statutory framework for university governance; this obviously has taken primacy in the drafting of the code. In addition, the introduction of the 2001 code of practice for the governance of State Bodies needed to be adapted and extended to the universities as organizations in receipt of substantial public funding. Finally, the 2001 framework, the Financial Governance of Irish Universities agreed between the HEA and the Conference of the Heads of Irish Universities (now the Irish Universities Association), was due also to be revised at this time.

The main focus of the first wave of the corporate governance movement was on accountability and this is well reflected in the Code. In addition, the Code seeks to reflect the subsequent move towards an increasing focus on ensuring effectiveness and on assurance based on identifying and managing risk. Through the Code, the universities strive to achieve voluntarily a balance between the principles of autonomy and accountability as enshrined in The Irish Universities Act 1997 and through their governance systems to assure their stakeholders that the investment being made in them is being effectively used and that the fundamental role of the university as an institution of learning and scholarship is safeguarded.

The growing size and complexity of the Irish universities, reflected in the following, present real challenges to our universities:

- New forms of relationships;
- Partnerships with communities and interests beyond their traditional remit, with many Irish universities now incorporating commercial subsidiary companies;
- Large budgets funded significantly from the state;
- Asset bases contributed to significantly by private donation;
- Overall resources greater than most privately owned businesses in their regions; and
- Diverse and potentially competing submissions.

The foregoing underlines the importance and the urgency of having clear, streamlined and effective governance codes in which the public can have confidence, so that appropriate responses to these, and other challenges that may arise in the future, can be planned.

The most important principle of university governance which should be underlined is that the governing authority bears ultimate responsibility for, and has ultimate authority over, all of the activities of the institution it governs.

This document enshrines the governance principles and qualities of openness, transparency, independence and accountability. It promotes the qualities of selflessness, honesty, integrity, leadership and objectivity – qualities which the members of the governing authorities of Irish universities must embody within themselves. We acknowledge a debt of gratitude to them and particularly to their chairs, for their commitment to public service in contributing their energies and wisdom to that role.

All of the Irish universities have accepted this Code, its principles and its reporting requirements, although there are likely to be some local variations of an operational nature as it is implemented. Implementation commenced in all of the universities in 2007.

It is our intention to keep the code and its implementation under review.

We wish to thank the HEA/IUA working group which drafted the Code, the IUA nominee Mr Michael Kelleher and the HEA nominee Ms Mary Kerr and particularly to thank the group's independent chair Mr Dermot Quigley.

# INTRODUCTION

## Background

Good governance arrangements are essential for organisations large and small and whether operating in the public or private sectors. Governance comprises the systems and procedures under which organisations are directed and controlled. A robust system of governance is vital in order to enable organisations to operate effectively and to discharge their responsibilities as regards transparency and accountability to those they serve. Given their pivotal role in society and in national economic and social development, as well as their heavy reliance on public as well as private funding, good governance is particularly important in the case of the universities.

Universities have a strong track record in relation to governance and accountability. The Universities Act, 1997 (the “1997 Act”) was very proactive in setting out a framework of accountability for the effective governance of universities. The Act also underscores the autonomy of Irish universities particularly in Section 14 (i) which provides that a university shall “have the right and responsibility to preserve and promote the traditional principles of academic freedom in the conduct of internal and external affairs and be entitled to regulate its affairs in accordance with its independent ethos and traditions” and “...if, in the interpretation of this Act, there is a doubt regarding the meaning of any provision, a construction that would promote the ethos and those traditions and principles shall be preferred to a construction that would not so promote”. The approach to governance set out in this document seeks to preserve the balance between accountability and autonomy which is struck in the Act.

Since the implementation of the Act in 1997 there have been a number of developments in governance and accountability. Some such developments were addressed in the 2001 report “The Financial Governance of Irish Universities: Balancing Autonomy and Accountability”, a code initiated and developed jointly by the universities and the Higher Education Authority (HEA).

The 2001 code provided for a further review after a period of three years to ascertain if further recommendations were required and to assist the universities in implementing best practice. The more recent developments in governance arrangements in the public and private sectors, both in Ireland and abroad, extend beyond financial governance which was the primary focus of the earlier code. In the light of this, the HEA and the Irish Universities Association (IUA) initiated this further review. The provisions of the “Governance of Irish Universities” update and replace the relevant provisions of the 2001 code.

A Working Group comprising a representative of the HEA, a nominee of the IUA and an independent Chairperson undertook this review. A series of consultative meetings took place between the Working Group and representatives of the IUA (Secretaries, Chief Financial Officers and Internal Auditors). The outcome as set out in this document has now been jointly agreed by the Working Group and the IUA representatives at their levels and is being submitted to the HEA. Following approval by the HEA it will be forwarded to the individual universities for agreement and adoption.

## **Content**

The approach to governance set out in this document enshrines the basic principles of:

- Openness and transparency;
- Selflessness;
- Honesty;
- Leadership;
- Fairness;
- Integrity;
- Independence;
- Accountability;
- Objectivity;
- Efficiency and Effectiveness;
- Value for money.

The governance arrangements are set out in three separate parts as outlined below:

- (1) University Legislation and Related Legislative Frameworks;
- (2) Universities Code: Principles and Best Practice;
- (3) More Detailed Governance Guidelines.

### *(1) University Legislation and Related Legislative Frameworks*

This primarily deals with the governance requirements arising from the provisions of the 1997 Act and the agreed frameworks under that Act. These are obligatory requirements.

### *(2) Universities Code: Principles and Best Practice*

This is a voluntary code outlining a further set of principles and best practices, which take account of developments in governance since 1997 and are intended to be generally applicable regarding the internal practices and external relations and accountabilities of the universities.

The Code takes account as appropriate of the corresponding Code for the Governance of State Bodies which has been put in place by the Government. It also has regard to

developments since the 2001 code and to the more general comments in the OECD Examiners' Report, "Review of Higher Education in Ireland September 2004". Account has also been taken of governance issues raised in the EUA Report, "EUA/Review of Quality Assurance in Irish Universities - Sectoral report", February 2005. In addition to the foregoing, the Working Group examined a large selection of relevant reports and other documentation dealing with governance in both the public and private sectors; a full list is contained at the end of this document.

The Working Group also received an extremely valuable presentation from Dr David Fletcher, Secretary of Committee of University Chairmen on recent developments in Governance in the UK Higher Education Sector. The Working Group would like to thank Dr Fletcher for his constructive input into the Group's work.

The governing authority of each university is primarily responsible for ensuring that its activities are governed by the ethical and other considerations enshrined in the Code. Where a university's practices are not consistent with particular provisions of this Code the reasons should be clear and documented.

The provisions of this Code are supplementary to and do not affect existing statutory requirements relating to a university (as set out in **Part 1** of this document) and any other legislation applicable to it or its activities.

### *(3) More Detailed Governance Guidelines*

These are a set of illustrative guidelines to inform the implementation of the Universities Code: Principles and Best Practice while recognising the particular ethos, circumstances and organisational structures of each university. They are not intended to be prescriptive in their detail. It is recognised that it is not feasible or desirable to attempt to provide for all situations or to rule out flexibilities in application that may be needed to take account of the circumstances of individual universities.

## **Conclusion**

Good governance should be seen as an aid to effectiveness. It is not there to inhibit enterprise or innovation. Good governance arrangements necessarily involve having appropriate checks and balances in relation to decision-making in the institutions, so as to safeguard the collective responsibility of the governing authority.

This document will assist universities and their governing authorities in the good and proper management of universities and in ensuring that appropriate procedures and controls are implemented to manage the risks facing such complex institutions, while at the same time respecting their autonomy.

It will also provide comfort to the State and the public at large that universities are operating to the highest standards of governance and accountability in relation to all their activities.

While this document deals primarily with governance issues as applicable to governing authorities<sup>1</sup>, the principles and best practices in it are equally applicable to other organs of governance, e.g. academic councils/boards, committees of the governing bodies and committees generally, faculties, schools, departments, etc.

It is intended to keep the content and operation of “Governance of Irish Universities” under review and to amend it from time to time in the light of experience and following appropriate consultation.

<sup>1</sup> “A governing authority... shall be known by whatever name the governing authority decides.” [1997 Act, s. 15 (1)]. Currently, the names “Governing Authority”, “Governing Body”, “Údarás na hOllscoile” or “Board” are in use in the respective universities.

- (3) *If a university ceases to be funded substantially from moneys provided by the Oireachtas, then all moneys provided to the university by the Oireachtas after the date of the passing of this Act for the acquisition, development or refurbishment of land, or for the acquisition of any other assets which are the property of the university, shall be repayable to the Minister subject to such terms and conditions, including as to the amount to be so repaid, as may be agreed between the Minister and the governing authority.*
- (4) *Where the Minister and a governing authority cannot agree on terms and conditions referred to in this section, the issues in dispute shall be determined by an arbitrator appointed by the President of the High Court and any arbitration shall be conducted in accordance with the Arbitration Acts, 1954 and 1980.”*

This framework is attached at **Appendix 1B.**

- 1.7.2 Section 37 deals with university budgets and requires a governing authority to “..prepare and submit to An tÚdarás, in such form and manner as may from time to time be approved by An tÚdarás, a statement of the proposed expenditure and expected income of the university for the financial year.”
- 1.7.3 Section 39 deals with keeping of accounts and records and requires that accounts “...be submitted annually by a university to the Comptroller and Auditor General, for audit....and immediately after the audit, a copy of the accounts, together with a copy of the report of the Comptroller and Auditor General on the accounts, shall be presented by the university to An tÚdarás and to the Minister.”
- 1.7.4 Section 41 requires the Chief Officer with the approval of the governing authority to “...prepare a report on the operations and the performance of the university...” and send this to the HEA and the Minister for Education and Science

**1.8 Strategic Planning**

- 1.8.1 Section 34 of the 1997 Act makes provisions in regard to strategic planning and evaluation in the universities.
- 1.8.2 The requirement to prepare “a plan which shall set out the aims of the Governing Authority for the operation and development of the university and its strategy for achieving those aims, and for carrying out the functions of the university, during the period, being not less than three years, to which the plan relates” is provided for in Section 34(1) of the 1997 Act.

- 1.8.3 In accordance with Section 34(3) a copy of the strategic development plan is provided to the Minister and to the HEA.

- 1.8.6 In accordance with Section 41(2) the governing authority shall publish the report at 1.8.5 in such form as it sees fit and provide the Minister with a copy. On receipt of the report the Minister will lay it before each House of the Oireachtas as soon as practicable.
- 1.8.7 The full provisions of Section 41 of the 1997 Act are set out in **Appendix 1A**.

## APPENDIX 1B

### AGREED FRAMEWORK BETWEEN THE UNIVERSITIES AND THE HEA FOR DEPARTURES FROM APPROVED LEVELS OF REMUNERATION, FEES, ALLOWANCES AND EXPENSES FOR UNIVERSITY EMPLOYEES

# 1

#### **1B.1 Introduction**

1B.1.1 Section 25 (4) of the 1997 Act provides as follows:

*“Subject to subsection (5), there shall be paid by a university to the employees of that university, such remuneration, fees, allowances and expenses as may be approved from time to time by the Minister with the consent of the Minister for Finance.”*

1B.1.2 Section 25 (5) (a) of the Act, allows for departures from levels of remuneration etc. as follows:

*“A university may depart from levels of remuneration, fees, allowances and expenses approved under subsection (4) where the governing authority is satisfied that it is necessary to meet the objects of the university, but may do so only in accordance with a framework, which shall be agreed between the universities and An tÚdarás”.*

1B.1.3 For the purposes of the framework set out hereunder the term remuneration shall cover remuneration, fees, allowances and expenses.

#### **1B.2 Provisions of the Framework**

##### **1B.2.1 General Provisions**

1B.2.1.1 The universities and the HEA (the parties) agree that the purpose of the framework provided for in the Act is to lay down principles to which the parties subscribe regarding the exercise of discretion on the part of a university to depart from levels of remuneration etc. approved by the Minister. The purpose of Section 25 (5) (a) is to provide a discretion to a university where necessary to meet the objects of the university, in particular by enabling it to attract a person to its staff, who would, because of exceptional or scarce expertise and/or qualifications, command remuneration higher than the norm and who would not be prepared to work for the university unless so rewarded. The parties agree that the provisions of the framework will be used in exceptional circumstances only and that its application shall have regard to avoiding any damage to the morale of staff in the universities.

1B.2.1.2 It is agreed by the parties that the implementation of this framework by a university should not have any repercussive effects in the university sector or in the public service generally deriving for example, from pay relativities or linkages or other conditions of employment which could form a basis for

comparative claims from other groups. The parties agree that any employee who is paid as a result of an agreement under this framework shall be red circled and that any claims from university employees for improved conditions which are based on, or refer to, agreements made under this framework shall be opposed on that ground (without prejudice to any other grounds the university may have).

1B.2.1.3 It is agreed by the partners that, subject to paragraph 2.2.1 (e) and 2.2.3 following, the provisions of the framework should not be used to provide additional remuneration to existing staff.

### **1B.2.2 Specific provisions and criteria**

1B.2.2.1 Subject to the general provisions set out above a departure as envisaged in Section 25(5)(a) of the 1997 Act shall take place only if:

- (a) The Chief Officer confirms that the Governing Authority is satisfied and so certifies, that there is clear and documented justification that the departure is necessary to meet the objects of the university and that, in so far as its best endeavours can ascertain, it will have no adverse implications within the university sector or in the public sector generally;
- (b) Subject to paragraph 2.2.1 (e) it is limited to a contract appointment in accordance with the following principles:
  - A separate individual contract must be drawn up, the terms of which must differ significantly from the terms of appointment of permanent staff;
  - It must be a specified purpose or fixed-term contract, not normally exceeding five years;
  - The post must bear a unique title, duties and responsibilities, which differentiates it from an established post or grade;
  - The contract should include stated performance objectives for the post holder, provisions for performance review in the light of these stated objectives, and for reduction in remuneration and/or for early termination of contract in the event of failure to meet the stated objectives;
- (c) It is used as a means of recruiting a new staff member (but see 2.2.1 (e) and 2.2.3 below);
- (d) Any costs arising are met within agreed budgets, in accordance with Section 37(2) of the Universities Act;
- (e) If the appointment is in accordance with the scheme for special professorships set out in the appendix to this Framework.

1B.2.2.2 Subject to the provisions of paragraph 2.2.1, where a departure involves an appointment to a non-academic post requiring professional or technical qualifications and experience, the conditions agreed shall be in line with those applying to positions with similar responsibilities and employment conditions in the broader public sector (including commercial semi-state bodies).

1B.2.2.3 The framework shall not, in line with the statement of general purpose in paragraph 2.1.1 (above), be used to change the conditions of existing permanent employees of the universities except in accordance with the provisions at 2.2.1 (e) above. However, the parties acknowledge that there may be a limited number of specific instances where a departure is required in order to retain key personnel because of their outstanding existing and potential contribution to the capacity of the university to meet its objects. In such cases a university may, with the prior agreement of the HEA, apply the provisions of the framework to existing staff. Any such appointments would be on a contract basis and would require the member of staff to resign from his or her existing position and would be subject to the conditions for the appointment being agreed by the university and the HEA.

1B.2.2.4 In the case of all departures under this framework (including appointments under the appendix to this Framework) the Chief Officer, as Accounting Officer, shall arrange for the documentation of all supporting considerations, including the conditions applying in appropriate comparable employments, and shall make such documentation available to the HEA in accordance with paragraph 2.2.5 (below).

1B.2.2.5 Each university shall provide to the HEA before end July and end January of each year details of, and justifications for, any departures made by it under this framework. The HEA shall, following consultation with the universities, specify the format in which such information shall be supplied.

1B.2.2.6 The framework shall not apply to the senior officer posts (above the grade of Professor) referred by the Minister for Finance to the New Review Body on Higher Remuneration in the Public Sector for the purpose of the review which commenced in January 2000.

### **1B.2.3 Duration and Review**

1B.2.3.1 The framework shall have effect when it has been approved by the HEA and when the HEA has been notified by the Chief Officers that it has been approved by the universities.

1B.2.3.2 Subject to the provisions of paragraph 2.3.3 below, the framework shall remain in place for a period of two years from the date of its coming into effect. It may, with the agreement of both parties be renewed either indefinitely or for further specific periods.

1B.2.3.3 The framework shall cease to have effect with regard to any further appointments following notice in writing by either the HEA or by any of the universities that they no longer, for stated reasons, subscribe to the framework. Such a notice shall be preceded by consultations between the parties and shall not affect any agreements made with specific individuals during the period when the framework was in force.

1B.2.3.4 The application of the framework may be reviewed jointly from time to time by the parties.

## **Appendix to Framework**

### **A Scheme for Special Professorships**

1B.3.1 The Irish universities are committed to playing a leading role in the creation of an internationally competitive advanced knowledge society in Ireland. To this end they are agreeing with the HEA to the establishment of a new scheme of [Edmund Burke]<sup>8</sup> professorships.

1B.3.2 The objective of the new scheme is to enable the universities to recruit and retain leading international scholars and researchers by offering them internationally competitive remuneration and conditions. The professorships will be open to scholars and researchers to all academic disciplines and will be made on a personal basis.

1B.3.3 The number of special professorships will be very small and will be limited to appointments of exceptionally talented individuals. The number will be reviewed every two years. There will not be individual institutional quotas.

1B.3.4 Appointment to the [Edmund Burke] professorships will be open to existing permanent and contract academic staff of the Irish universities and to individuals taking up appointments in the Irish universities.

1B.3.5 The proposal to make the appointment of a named individual as an [Edmund Burke] Professor will be made by the “host” university. The proposed appointment will be personal to the individual proposed by the university.

<sup>8</sup> Working title only - to be reviewed

- 1B.3.6 Securing the funding of these individual appointments will be a responsibility of the university. The additional remuneration costs of the appointments over and above salary levels approved in accordance with Section 25(4) of the Universities Act 1997 will be funded by the university from private or from Exchequer resources other than university core funding (HEA block grant<sup>9</sup> plus income from tuition fees in respect of EU undergraduate students). In all cases the funding organization or the university will provide an undertaking to provide funds to meet the full additional remuneration costs of the new post for an initial specified period of the appointment which shall not be less than five years.
- 1B.3.7 The university will, with where appropriate the agreement of the relevant funding organization, set the remuneration and tenure arrangements and conditions for the individual appointment having regard to its assessment of all relevant factors.
- 1B.3.8 Appointments will be subject to demanding, internationally benchmarked and independent vetting procedures. These procedures will be put in place by the relevant State research funding organizations (SFI, EI, IRCHSS, IRCSET and HRB etc., as appropriate) or by the university itself.
- 1B.3.9 Confirmation of each proposed appointment will not be made until the outcome of the vetting and benchmarking process has been confirmed as satisfactory by an independent process review. This will be carried out by a standing Panel of five distinguished international institutional and academic leaders appointed by the HEA in consultation with the universities. In order to avoid potential conflicts of interest, or perceptions of such conflicts, the panel members will not be based in Irish universities and will not have substantive links with individual Irish universities. The review criteria and benchmarks used by the Panel, and its information requirements, will be agreed between the universities, the HEA and the research funding organizations. Proposals will be referred to the Panel by the HEA. The Panel will give its decision on proposals no later than 10 working days from the date of receipt by its members of the proposal details and of the information required for making a decision. The Panel will operate with a quorum of three voting members and will conduct most of its business by email, or by video or audio conferencing supplemented, if necessary, by meetings in a single location. Where necessary, meetings of the panel will be chaired by a non-voting Irish chairperson agreed between the universities and the HEA. The secretariat will be provided by the HEA.

<sup>9</sup> Dedicated research and other special funding from the HEA can be used for funding these posts only with the agreement of the HEA.

- 1B.3.10 Continuance of approval for each individual appointment (designation of the title and additional remuneration) will be subject to periodic reviews to confirm performance of the appointee in line with the demanding international criteria agreed at the time of appointment and will be subject to confirmation by the university of the availability of additional funding as described in paragraph 6 and by the independent process review described in paragraph 9. The interval between reviews shall be no greater than five years in the case of each appointment.
- 1B.3.11 The legal basis for this scheme will be provided by way of an agreed amendment to the Agreed Framework of 2 March 2000 between the universities and the HEA. The existing substantive provisions (including paragraphs 2.1.2 and 2.2.5) of the Agreed Framework will be retained.

**1C.1 Provision in the Universities Act**

“38 (1) *A university may borrow money by means of a bank overdraft or otherwise and may guarantee or underwrite a loan taken or borrowing undertaken by a person or body of persons.*

(2) *Borrowing, guaranteeing and underwriting under subsection (1) shall be in accordance with a framework which shall be agreed from time to time between the universities and An tÚdarás, following consultations by An tÚdarás with the Minister [for Education and Science] and the Minister for Finance”.*

**1C.2 Purposes of Framework**

As stated in the Department of Education letter dated 16th December, 1996 to Dr. Michael Mortell, Chairman, Conference of Heads of Irish Universities, the intent of the framework is

- That a university can engage in borrowing, underwriting and guaranteeing activities provided that they impose no threat to, and do not create any contingent liabilities for, the public purse;
- To ensure that the capacity of a university to function effectively is not endangered;
- That advanced approval by An tÚdarás or the ministers, of individual instances of borrowing, underwriting or guaranteeing by a university would not be required.

**1C.3 Understanding**

The framework is set in the context of the current scheme operated by An tÚdarás for the funding of universities.

**1C.4 Budgetary Context**

The wider budgetary arrangements which set the financial context for this framework are outlined in Section 37 of the 1997 Act. This section requires a university to operate within an annual budget agreed with the HEA and stipulates that where a university incurs expenditure in excess of its budget that excess shall be a first charge on the budget for next succeeding financial year.

**1C.5 Framework Criteria**

A university shall not be required to obtain prior consent from An tÚdarás to engage in borrowing, underwriting, and guaranteeing activities if the exercise of its powers under Section 38 (1) of the 1997 Act involves either:

- (2) short-term activities by way of overdraft or otherwise within existing arrangements and practices established by the university; or
- (3) long-term activities for capital purposes only.

In either case the activities must comply with the following conditions:

- I the purpose of the transaction is in accordance with the objects and functions of the university;
- II any new capital investment is in accordance with the university's strategic plan;
- III the university is able to demonstrate the benefit of the transaction, whether it be refinancing or new investments;
- IV the university is able to meet annual servicing costs without recourse to additional grants from An tÚdarás;
- V the university's ability to maintain financial and academic viability and structural and general service is not impaired;
- VI the university has ensured that the servicing costs of the transaction represent value for money;
- VII the level of charge against the core teaching and research funds of the university in respect of the annual servicing cost of capital, defined as the cost of capital repayment and total interest costs spread evenly over the period of the borrowing, based on a ten year repayment period, shall not exceed 4% of the university's annual income, as defined at paragraph 8 below;
- VIII borrowing to finance additional student capacity where such capacity gives rise to the need for additional exchequer funding may only take place with the prior approval An tÚdarás;
- IX borrowing arising from projects to which section 843 of the Taxes Consolidation Act, 1997 or section 50 of the Finance Act, 1999 apply, are not subject to the borrowing limit established under this framework and may take place provided the servicing of these borrowings has no impact on the annual income of the university, as defined in paragraph 8;
- X the borrowing capacity of an individual university under this framework may not be transferred to another university.

### **1C.6 Reporting/Recording Requirements**

Full details of borrowing, underwriting and guaranteeing arrangements (including repayment periods and interest rates) and implications for recurrent expenditure, as certified by the Accounting Officer for the university, must be submitted with the annual budget to An tÚdarás. Recording in the audited accounts should be in accordance with standard reporting practice and in accordance with the openness, transparency and accountability obligations of a publicly funded institution.

### **1C.7 Review**

The framework shall be reviewed by An tÚdarás and the universities every three years, or earlier as may be required by either side.

### **1C.8 Annual Income**

For the purpose of this Framework, a university's annual income is defined as core teaching income – comprising recurrent State grant, student fees and sundry income – and research income as reported in the university's audited statements. Income derived from self-funded ancillary operations are excluded from this definition of annual income.

**2.1 Code of Governance**

- 2.1.1 In implementing this Code each university shall put in place a code of governance and in doing so shall have regard to the guidelines for governance set out at **Part 3.1**. These guidelines cover:
- The governing authority;
  - Role of Chairperson and Chief Officer in relation to governing authority;
  - Briefing for new governing authority members;
  - Disclosure of interests by members of the governing authority;
  - Risk management;
  - Audit Committee;
  - Sample terms of reference for Audit Committee;
  - Sample charter for Internal Audit.
- 2.1.2 The role of university Secretary shall include the duty to keep governing authority members briefed in respect of all relevant developments in governance and accountability.
- 2.1.3 Universities, including their subsidiaries<sup>10</sup>, should adopt this Universities Code: Principles and Best Practice and, in accordance with **paragraph 2.10.4**, confirm to the HEA that this has been done.
- 2.1.4 It is not feasible to have a code of best practice which will specifically provide for all situations that may arise. Members of the governing authority and employees of universities and their subsidiaries should bear in mind, therefore, that it is primarily their responsibility to ensure that all of their activities, whether covered specifically or otherwise in this document, are governed by the ethical and other considerations implicit in the Code.

<sup>10</sup> The Companies Act (section 155) provides that a company is deemed to be the subsidiary of another if, but only if,

(a) that other—

(i) holds a majority of the shareholders' or members' voting rights in the undertaking, or

(ii) is a shareholder or member of it and controls the composition of its board of directors, or

(iii) is a shareholder or member of it and controls alone, pursuant to an agreement with other shareholders or members, a majority of the shareholders' or members' voting rights; or

(b) that other has the right to exercise a dominant influence over it—

(i) by virtue of provisions contained in its memorandum or articles, or

(ii) by virtue of a control contract; or

(c) that other has the power to exercise, or actually exercises, dominant influence or control over it, or

(ca) that other and the subsidiary undertaking are managed on a unified basis, or

(d) the undertaking is a subsidiary of any undertaking which is that other's subsidiary undertaking.

## 2.2 Code of Conduct for Members and Employees

- 2.2.1 It is strongly recommended that all universities have written codes of conduct for members of the governing authority and employees. The codes should be developed via a participative approach and should be approved by the governing authority taking into account the implications of all the relevant provisions of the 1997 Act as well as the Ethics in Public Office Act 1995 and Standards in Public Office Act 2001. Suggested guidelines for such a code are contained in **Part 3.2** of this document. The Code for employees, a copy of which should be made available to all employees, should embrace such matters as duty to the university, avoidance of conflict of interest, limits on outside activities, acceptance of gifts and honesty in dealings. The up-to-date codes of conduct should be available upon request with a copy of each such code being accessible through the university's website.
- 2.2.2 As part of the Annual Governance reporting requirements set out in **paragraph 2.10.4** that are to be supplied to the HEA, the Chairperson and the Chief Officer should affirm to the HEA that codes of conduct for members of the governing authority and employees have been put in place.
- 2.2.3 In addition to complying with the requirements of universities' own governing legislation each member of the governing authority of a university and each person holding a designated position of employment with a university should ensure his/her compliance with relevant provisions of the Ethics in Public Office Act, 1995 and Standards in Public Office Act, 2001<sup>11</sup>.
- 2.2.4 Universities should promote the standards of service and the initiatives outlined in the "Principles of Quality Customer Service for Customers and Clients of the Public Service" which was originally launched in 1997 and was revised in 2000, having regard to the universities' own quality and appeal systems. Guidelines in relation to the Principles of such standards of service are included at **Part 3.3**.
- 2.2.5 The requirements specified in this Code should in general be applied in all operating subsidiaries of universities. Subsidiaries should formally report to the governing authority in accordance with the procedures determined by the governing authority and taking account of **paragraph 2.1.3** above. This report should be received prior to the Chairperson of the governing authority of the university and Chief Officer reporting to the HEA.

<sup>11</sup> In brief, the Act requires *inter alia* that persons in public bodies who hold designated directorships and designated positions of employment must make an annual statement or declaration of those interests (as defined in the Act) which could materially influence them in the performance of their functions and refrain them from exercising such functions in accordance with the Act. The annual statement, which may be updated if interests change, must be made to a designated person within the Public body, in accordance with the provisions of the Act, and, in the case of those who hold designated directorships, to the Public Offices Commission established under the Act. The

### 2.3 Internal Control and Risk Management

- 2.3.1 A system of internal control has a key role in the management of risks that are significant to the fulfilment of institutional objectives. A sound system of internal control contributes to safeguarding the interests of all relevant parties and the university's assets. Internal control facilitates the effectiveness and efficiency of operations; helps ensure the reliability of internal and external reporting and assists compliance with laws and regulations.
- 2.3.2 Effective financial controls, including the maintenance of proper accounting records, are an important element of internal control. They help ensure that the university is not unnecessarily exposed to avoidable financial risks and that financial information used and published is reliable. They also contribute to the safeguarding of assets, including the prevention and detection of fraud.
- 2.3.3 A university's objectives, its internal organisation and the environment in which it operates are continually evolving and, as a result, the risks it faces are continually changing. A sound system of internal control therefore depends on a thorough and regular evaluation of the nature and extent of the risks to which the university is exposed. The purpose of internal control is to help manage and control risk appropriately rather than to eliminate it.
- 2.3.4 The governing authority is responsible for ensuring the university maintains a sound system of internal control, including risk management. A sound system of internal control reduces, but cannot eliminate, the possibility of poor judgement in decision-making, human error, control processes being deliberately circumvented by employees and others, management overriding controls and the occurrence of unforeseeable circumstances.
- 2.3.5 A sound system of internal control therefore provides reasonable, but not absolute, assurance that the university will not be hindered in achieving its objectives, or in the orderly and legitimate conduct of its business, by circumstances which may reasonably be foreseen. A system of internal control cannot provide protection with certainty against failing to meet objectives or prevent all material failures, errors, losses, fraud, or breaches of laws or regulations.
- 2.3.6 Systematic assessment and management of risk is becoming an increasingly important part of internal control. Risk identification and management is seen as necessary to maximise the likelihood of achieving an institution's desired objectives and outcomes.

Commission will provide advice and publish mandatory procedures concerning steps to be taken by designated directors and holders of designated positions (among others) to ensure compliance with the Act. Where a person who holds a designated directorship or designated position of employment in a Public body is advised by the Commission, or it appears from guidelines published by the Commission that his/her interest or the interest of a connected person should be disclosed, that person must make an appropriate statement to the relevant authority in the Public body.

- 2.3.7 It is the responsibility of the governing authority to ensure that a robust system of risk management is in place in the university.
- 2.3.8 The governing authority should ensure that the risk assessment and management process is integrated into existing management systems. It should be kept as simple as possible. Roles and responsibilities should be clearly assigned and a person at a senior level with overall responsibility for it nominated.

#### **2.4 Audit Committee**

- 2.4.1 There should be an Audit Committee established by the governing authority<sup>12</sup> with written terms of reference which deal clearly with its authority and duties.
- 2.4.2 The constitution and terms of reference of the Audit Committee should be reviewed regularly by the governing authority and updated as appropriate.
- 2.4.3 Members of the governing authority who hold executive responsibility within the university should not be members of the Audit Committee. Neither the Chief Officer nor Chairperson should be a member of the Audit Committee.<sup>13</sup>
- 2.4.4 The Committee should meet sufficiently regularly to enable it to fulfil its duties.
- 2.4.5 The Committee should report annually to the governing authority.
- 2.4.6 The Committee should have explicit authority to investigate any matters within its terms of reference and should be given the resources needed for this purpose including outside professional advice as necessary.
- 2.4.7 The Committee should keep under review and advise on the operation and effectiveness of the university's risk management systems and report annually thereon to the governing authority.
- 2.4.8 The Committee should advise on the selection and appointment of the external auditors engaged by the governing authority.
- 2.4.9 At least once a year the Committee will meet separately with each of the following: (a) the external auditors, (b) the Head of Internal Audit and (c) the Director of Risk Management, without members of management being present. The Committee will meet regularly with a representative of the Office of the Comptroller & Auditor General.

<sup>12</sup> All seven universities have established such audit committees.

<sup>13</sup> While the 1997 Act provides that the Chief Officer is entitled to be chairperson of any committee appointed by the governing authority, it obviously would not be good governance practice for a Chief Officer or Chairperson to chair or to be a member of the Audit Committee.

2.4.10 The Head of Internal Audit should have ongoing access to the Chairperson of the Audit Committee.

2.4.11 The Committee should meet with the nominated person with overall responsibility for Risk Management at least once a year.

## **2.5 Internal Audit Functions**

2.5.1 There should be a properly constituted and functioning internal audit service in each university, whether provided in-house or out-sourced.

2.5.2 The Internal Audit function should have a formal charter, including terms of reference, which should be approved by the governing authority.

2.5.3 The Head of Internal Audit shall have direct access to the Chief Officer, to the Chairperson of the Audit Committee and to the Chairperson of the governing authority.

2.5.4 The objective of Internal Audit should be to provide assurance that the university has a sound system of internal control.

2.5.5 The reporting structure for Internal Audit should be clear and formally recorded.

2.5.6 The Internal Audit function should be adequately resourced with the necessary skills including the ability to deal with non-financial aspects.

2.5.7 The Internal Audit function should liaise frequently with the external auditors engaged by the governing authority so that the potential for cooperation between the two is maximised. In planning, executing and reporting its work, the Internal Audit function should ensure that value-for-money auditing receives adequate attention.

2.5.8 As part of its work the Internal Audit function should review compliance with procurement and disposal procedures from time to time and report to the Audit Committee and the governing authority.

## **2.6 Remuneration**

2.6.1 Governing authorities are required to implement Government pay policy (including procedures and systems in relation to Travel and Subsistence), as expressed from time to time. These arrangements cover total remuneration.

Further pay policy as expressed from time to time in accordance with Frameworks agreed between the universities and the HEA under Section 25 (5) of the 1997 Act must also be implemented and adhered to. The Agreed Framework between the universities and the HEA for Departures from Approved Levels of Remuneration, Fees, Allowances and Expenses for University Employees is attached at **Part 1B**.

## **2.7 Procurement and Tax Clearance**

- 2.7.1 Competitive tendering should be the normal procedure in the procurement process of universities subject to **paragraph 2.7.2** below. The detailed procurement procedures, as set out in the “Public Procurement Guidelines – Competitive Process” (current edition issued in 2004), in respect of competitive tendering should be applied together with other relevant guidelines issued by the Department of Finance. In addition to the national guidelines, the relevant EU Directives, which have the force of law in this and all Member States, apply. It is the responsibility of the governing authority and management to ensure that appropriate systems and procedures are implemented to address material risks of non-compliance. The Chairperson and the Chief Officer should, in their report to the HEA (see **paragraph 2.10.4** below), affirm that such systems and procedures are in place and that to the best of their knowledge and belief the university has been compliant with the procurement procedures outlined above.
- 2.7.2 Contracts for supplying a research and development service and certain research and development supply contracts as specified in Article 31 (2) (a) of Directive 2004/18/EC may be exempt from the scope of Procurement Directives where their benefits are for the greater public good, not confined to the contracting authority, on condition that the service supplied is wholly paid for by the authority. In this context, where a university enters into research collaborations, joint ventures with industry or other external parties, or other arrangements where Intellectual Property may be brought to a university, and where a decision has been taken that competitive tendering is not required, such cases should be reported to the governing authority with evidence of a valid and informed basis for the decision and evidence that the principle of obtaining best value for public funding has been followed.
- 2.7.3 All universities must ensure that the Tax Clearance requirements set out in Department of Finance Circular of 30 July 1991 (F 49/13/87) (which deals with payment of grants, subsidies and similar type payments), and Department of Finance Circular 22/95, as regards Public Sector Contracts, are fully adhered to.

**2.8 Disposal of Assets and Access to Assets by Third Parties**

- 2.8.1 In addition to the relevant statutory provisions of the 1997 Act as set out in **Part 1.5** of this document, universities should adhere to best practice for the disposal of assets or the granting of access to property or infrastructure for commercial arrangements e.g. joint ventures with third parties which should be by auction or competitive tendering process, other than in exceptional circumstances (such as a sale to a charitable body or in circumstances set out in **paragraph 2.7.2** above). The method used should be both transparent and likely to achieve a fair market-related price. Suggested guidelines for best practice are outlined in **Part 3.5** of this document.
- 2.8.2 Regard should also be had to the guidelines on Intellectual Property entitled “Funding Agency Requirements & Guidelines for Managing Research Generated Intellectual Property”, a joint publication of Enterprise Ireland, Forfás, Health Research Board, HEA, Industrial Development Authority, IRCSET and Science Foundation Ireland, 2006. This document is available at: <http://www.hrb.ie/storage/hrbresearch/Intellectual-Property-Guidelines.pdf>.

**2.9 Investment Appraisal and Value for Money**

- 2.9.1 “Guidelines for the Appraisal and Management of Capital Expenditure Proposals in the Public Sector” were issued by the Department of Finance in February 2005. These procedures outline best practice for the management of significant capital expenditure proposals in the public sector. The governing authority and the relevant management staff of the university should have regard to these guidelines in the planning, appraisal and management of significant expenditure projects. This document is available at: <http://www.finance.gov.ie/documents/publications/other/capappguide05.pdf>.
- 2.9.2 The HEA’s letter of 4 May 2006 to the President of each university regarding Capital Appraisal Guidelines and other Value for Money measures refers. This requires confirmation that necessary arrangements have been made to ensure full compliance with these requirements. Details of these requirements can be found at: <http://www.finance.gov.ie/viewdoc.asp?DocID=3561>

**2.10 Reporting Arrangements**

- 2.10.1 In addition to the reporting requirements set out in the relevant legislation universities shall meet the following additional requirements.

- 2.10.2 Included with the accounts, which are kept in accordance with Section 39 of the 1997 Act (see **paragraph 1.7.3**), there should be a statement on the system of internal control in the form set out in **Part 3.4**, which should be signed by the Chairperson and Chief Officer. This statement should be reviewed by the external auditors engaged by the governing authority to confirm that it reflects the audited university's compliance with the requirements of **paragraph 2.10.4** and they should consider if the statement is inconsistent with the information of which they are aware from their audit work on the financial statements. The external auditors should report their findings accordingly in the accounts to be submitted annually by a university to the Comptroller & Auditor General for audit, in accordance with Section 39 of the 1997 Act. The statement will be reviewed also by the Comptroller & Auditor General.
- 2.10.3 The annual financial statements of universities should reflect all post-balance sheet events, in accordance with generally accepted accounting principles (GAAP).
- 2.10.4 In addition to these requirements, the following information should be included in an annual governance statement signed by the Chief Officer and Chairperson and submitted to the HEA:
- (i) A statement confirming that a code of Governance and a Code of Conduct for Members and Employees have been adopted;
  - (ii) Financially significant developments affecting the university in the past year, including the establishment of subsidiaries or joint ventures and acquisitions, and major issues likely to arise in the short to medium term;
  - (iii) A statement affirming that Government policy on pay is being complied with (see **paragraph 2.6.1**);
  - (iv) A statement affirming that all appropriate procedures for financial reporting, internal audit, procurement and asset disposals are being carried out;
  - (v) Confirmation that the Guidelines for the Appraisal and Management of Capital Proposals are being adhered to where appropriate;
  - (vi) Confirmation that the Guidelines on Achieving Value for Money in Public Expenditure as set out in the address by the Minister for Finance of 20 October 2005 and communicated to the universities are being followed<sup>14</sup>;
  - (vii) A statement affirming the university's compliance with tax laws.

In the event that a university fails to comply with any of the above the university shall report such matters of non-compliance to the HEA providing an explanation for same and stating any corrective action taken or contemplated.

<sup>14</sup> (Ref: <http://www.finance.gov.ie/documents/publications/other/pubproc&cap.app.pdf>)

**2.11 Tax Compliance**

- 2.11.1 As major beneficiaries of State funding, universities should be exemplary in their compliance with taxation laws and should ensure that all tax liabilities are paid on or before the relevant due dates.
- 2.11.2 Universities, while availing of all legitimate taxation arrangements, should not engage in “offensive” tax avoidance transactions. In broad terms tax avoidance is “offensive” if it involves the use of the tax code for a purpose other than that intended by the Oireachtas (including an unintended use of a tax incentive) with a view to reducing the amount of tax to be paid by the university or some other party to a transaction in which the university participates. Where a doubt arises in a particular instance, the university concerned should consult the Revenue Commissioners.

**2.12 Diversification and Establishment of Subsidiaries**

- 2.12.1 As one of the functions of a university, section 13 (2) (c) of the 1997 Act provides that a university, “... *may establish by incorporation in the State or elsewhere, or participate in the establishment of, such trading, research or other corporations as it thinks fit for the purpose of promoting or assisting, or in connection with the functions of, the university.*”
- 2.12.2 Any proposals for the diversification of a university’s activities, particularly in relation to diversification into areas outside the core functions of teaching and research, or for the establishment of new subsidiaries should require the approval of the governing authority, which should consider the full implications, including any financial or other risks, for the university.

**2.13 Strategic Planning**

- 2.13.1 In addition to the requirements of Section 34 of the 1997 Act (see **paragraph 1.8.2**), university strategic plans, approved by the governing authority, should set appropriate objectives, goals and relevant indicators and targets against which performance can be clearly measured.
- 2.13.2 In addition to the requirements of Section 41(1) of the 1997 Act (see **paragraph 1.8.5**), the report of the Chief Officer should normally refer to the specific aims and targets proposed by the university in its strategic plan, the expected outputs and outcomes and the key performance indicators by which the achievement of the aims and targets is assessed.

**3.1 Guidelines for Governance**

**3.1.1 The Governing Authority**

3.1.1.1 The procedural operation and functions of the governing authority of a university are governed by the 1997 Act. Section 18 of the 1997 Act (see **Appendix 1A**) sets out the functions of the governing authority. The Third Schedule of the Act (see **paragraph 1.2.3**) in particular governs the operation of the governing authority.

3.1.1.2 The governing authority should meet regularly, exercise effectively its strategic governance role and monitor the executive management and performance.

3.1.1.3 The governing authority should have a formal schedule of matters specifically reserved to it for decision to ensure the proper management and control of the university. This schedule should include the various statutory functions reserved to the governing authority as set out in the 1997 Act:

- Section 18 - Functions of a Governing Authority;
- Section 25 - Staff;
- Section 27 - Academic Council;
- Section 34 - Strategic Development Plan;
- Section 35 - Quality Assurance;
- Section 36 - Equality Policy.

In addition, the schedule could include the following:

- Significant acquisitions, disposals and retirement of assets of the university or its subsidiaries. The schedule should specify clear quantitative thresholds for contracts above which the approval of the governing authority is required;
- Major investments and capital projects, delegated authority levels, treasury policy and risk management policies;
- Approval of terms of major contracts.

3.1.1.4 The collective responsibility and authority of the governing authority should be safeguarded. Excessive influence on governing authority decision-making by individual members should be avoided, while allowing governing authority members the opportunity fully to contribute to governing authority deliberations.

3.1.1.5 All members of the governing authority should have independent access to the advice and services of the Secretary of the university who must ensure that governing authority members are fully aware of the appropriate rules, regulations and procedures.

- 3.1.1.6 In the normal course outside legal or other advice required will be obtained by the Secretary on behalf of the governing authority in accordance with the collective nature of its responsibilities. Notwithstanding the foregoing, a governing authority should consider making provision for the seeking in exceptional circumstances of independent legal or other professional advice by an individual member of group of members at the reasonable expense of the university; the Secretary shall deal with the matter in accordance with procedures to be laid down by the governing authority.
- 3.1.1.7 Any business or other interests, which could affect a member's independence, should be dealt with as outlined in **paragraph 3.1.4** below.
- 3.1.1.8 Non-executive members of the governing authority should also take care not to become involved in the day-to-day executive management of the institution. This also applies to the staff and student members of a governing authority, except that in the course of their employment or in their activities as students, they may have executive responsibilities within the institution.
- 3.1.1.9 It should be noted that the 1997 Act provides as follows, "*A member of a governing authority of a university shall at all times act, as a member, in the best interests of the university and shall not act as a representative of any special interest provided that nothing in this paragraph shall restrict a member from representing at meetings of the governing authority the views of those by whom he or she has been elected or to restrict the freedom of expression of that member.*" (Third Schedule of 1997 Act, Section 8 (3)).
- 3.1.1.10 It is the governing authority's duty to ensure that a balanced and understandable assessment of the university's position is made in presenting its annual accounts to the Minister for Education and Science, and to the HEA.
- 3.1.1.11 The governing authority should state in the annual accounts that they are responsible for approving the accounts. There should also be a statement by the external auditors engaged by the governing authority about their reporting responsibilities.
- 3.1.1.12 The governing authority should ensure that the university has in place a sound system of internal management and control, including
- Managerial control systems, which may include defining policies, setting objectives and plans, setting Key Performance Indicators and monitoring financial and other performance;
  - Financial and operational control systems and procedures which may include the physical safeguards of assets, segregation of duties, authority and approval procedures and information systems.

## PART 3 MORE DETAILED GOVERNANCE GUIDELINES

- 3.1.1.13 The governing authority should review on a periodic basis the effectiveness of the university's system of internal controls, including financial, operational and compliance controls and risk management.
- 3.1.1.14 The governing authority should be supplied, in a timely fashion, with information which is of a suitable quality to enable governing authority members satisfactorily to discharge their duties.
- 3.1.1.15 The governing authority is responsible for ensuring compliance with all statutory obligations applicable to the university. Where individual governing authority members become aware of non-compliance with any such obligation, they should immediately bring this to the attention of their fellow governing authority members with a view to having the matter rectified subject to the provisions of the 1997 Act. However, if the matter cannot be rectified and/or constitutes a flagrant breach of the members' obligations, the Chairperson should advise the HEA accordingly.
- 3.1.1.16 The governing authority has a responsibility to establish procedures for maintaining an appropriate relationship with the external auditors engaged by the governing authority.

**3.1.2. Role of Chairperson and Chief Officer in relation to Governing Authority**

- 3.1.2.1 The roles of the Chairperson and Chief Officer are governed by the 1997 Act. The role of the Chairperson<sup>15</sup> is governed in particular by Section 17 and by the Third Schedule of the Act. The role of the Chief Officer<sup>16</sup> is governed particularly by Section 24 and by the Fourth Schedule of the Act as amended by Section 53 of the Institute of Technology Act 2006. These and other relevant sections of the Act are set out in **Part 1.3**.

<sup>15</sup> The Chairperson "may be designated by such title as the Governing Authority determines." [1997 Act, Third Schedule, Section 2 (i).] The titles "Chairperson", "Chancellor" and "Cathaoirleach" are in use.

<sup>16</sup> The Chief Officer "shall be called the President or Provost or by such other title as the Governing Authority determines." [1997 Act, Third Schedule, Section 2 (i).]

### **Role of the Chairperson**

- 3.1.2.2 The Chairperson is responsible for the leadership of the governing authority. As chairperson of its meetings he/she should promote its wellbeing and efficient operation, ensuring that its members work together effectively and have confidence in the procedures laid down for the conduct of business.
- 3.1.2.3 A Chairperson should take particular care that the governing authority observes the principles of good governance, and that committees which play a central role in the proper conduct of the governing authority's business report back appropriately. The Chairperson should also ultimately be responsible for ensuring that the governing authority operates effectively, discusses those issues which it needs to discuss, and dispatches its responsibilities in a business-like way. The Chairperson should lead a periodic review by the governing authority of its own effectiveness.
- 3.1.2.4 Through leadership of the governing authority, the Chairperson plays a key role in the strategic direction of the institution, but is not to be drawn into the day-to-day executive management. For the governing authority to be effective, there must be a constructive and challenging working relationship between the Chairperson and the Chief Officer of the institution. This relationship will depend on the personalities involved, but it is desirable to emphasise the need for both sides to recognise that the roles are formally distinct. The relationship should be mutually supportive, but must also incorporate the checks and balances imposed by the different roles each has within an institution's constitution.

### **Role of the Chief Officer**

- 3.1.2.5 The Chief Officer is responsible for the executive management of the institution and its day-to-day direction. He or she must not seek to determine matters reserved for the governing authority.
- 3.1.2.6 The specific responsibilities of the Chief Officer in relation to governing authority business include:
- Implementing the decisions of the governing authority or ensuring that they are implemented through the relevant part of the institution's management structure;
  - Initiating discussion and consultation including, where appropriate, consultation with the staff and the academic council/board on proposals concerning the institution's future development, and ensuring that such proposals are presented to the governing authority.

3.1.2.7 It is noted that the 1997 Act provides as follows: “Where the chief officer of a university is of the opinion that a proposed course of action of the governing authority will or is likely to result in expenditure in excess of the budget ... a ‘material departure from the budget’, the chief officer shall so inform the governing authority. Where a governing authority... decides to proceed with its course of action, the chief officer shall, unless satisfied that a material departure from the budget will not occur, as soon as practicable, inform An tÚdarás of the decision of the governing authority.” [Section 37(5) and 37(6).]

### 3.1.3. Briefing for new Governing Authority Members

3.1.3.1 Governing authority members of universities have duties under the 1997 Act and it is the responsibility of each governing authority member to act in conformity with the applicable provisions of this Act.

3.1.3.2 On appointment of new governing authority members, the Secretary should provide them with the following information in the form of a member’s handbook or guide:

- A formal schedule of matters reserved to the governing authority for decision;
- Procedures for obtaining information on relevant new laws and regulations;
- Procedures to be followed when, exceptionally, decisions are required between governing authority meetings;
- A schedule detailing the composition of all governing authority committees and their terms of reference;
- A statement explaining the governing authority members’ responsibilities in relation to the preparation/approval of the accounts, the university’s system of internal control and audit;
- A statement informing the governing authority members that they have access to the advice and services of the Secretary who is responsible to the governing authority for ensuring that governing authority procedures are followed and the applicable rules and regulations are complied with;
- Code of ethics/conduct for governing authority, including disclosure of governing authority members’ interests;
- Specific university information;
- A copy of the most up-to-date version of the “Governance of Irish Universities” together with any relevant circulars and/or guidance notes;
- Any arrangements laid down by the governing authority for seeking legal or other professional advice.

### 3.1.4. Disclosure of Interests by members of the Governing Authority

- 3.1.4.1 It is central to the conduct of the business of the governing authority that members should act, and be perceived to act, impartially and not to be influenced in their roles as members by business or social relationships.
- 3.1.4.2 The requirements of the Ethics in Public Office Act 1995, and the Standards in Public Office Act 2001 have been referred to at **paragraph 2.2.3** of the Universities Code: Principles and Best Practice.
- 3.1.4.3 It should be noted that in relation to contracts the 1997 Act (Third Schedule, 8(1)) provides that, "A member of a governing authority who has an interest in (a) a company (other than a public company of which he or she is not a director or otherwise involved in its management) or concern with which the university proposes to make a contract, or (b) a contract which the university proposes to make, shall disclose to the governing authority the fact of the interest and its nature and shall take no part in any deliberations or decision of the governing authority relating to the contract, and the disclosure shall be recorded in the minutes of the governing authority".
- 3.1.4.4 The provisions of 8(2) of the Third Schedule deal with the obligations of a member of a governing authority who is related to a candidate for appointment by the governing authority as an employee in the university, "A member of a governing authority of a university who is related to a person who is a candidate for appointment by the governing authority as an employee of the university, shall disclose to the governing authority the fact of the relationship and its nature and shall, if the governing authority so decides, take no part in any deliberation or decision of the governing authority relating to the appointment, and the disclosure and decision shall be recorded in the minutes of the governing authority."
- 3.1.4.5 In addition to the statutory requirements, the governing authority should set down a broader code for the disclosure of all relevant interests (pecuniary, family<sup>17</sup>, financial or other) by members of the governing authority, which pose a real or potential risk for conflict of interest or could materially influence the member in the performance of his or her functions as a member of the governing authority or damage public confidence in the university. The code should have regard, as appropriate, to the relevant disclosure provisions of the Code of Practice for State Bodies. A member for whom a relevant interest arises in relation to matters for decision by the governing authority should not take part in any deliberation or decision of the governing authority in relation to those matters.

<sup>17</sup> For this purpose, persons and bodies connected with a member should include:

(a) a spouse, parent, brother, sister, child or step-child;

(b) a body corporate with which the member is associated;

(c) a person acting as the trustee of any trust, the beneficiaries of which include the member or the persons at (a) above or the body corporate at (b) above; and

(d) a person acting as a partner of the member or of any person or body who, by virtue of (a) - (c) above, is connected with the member.

3.1.4.6 Former members of a governing authority should treat commercial information received while acting in that capacity as confidential.

3.1.4.7 The procedures in this section should also be applied in subsidiaries of universities.

### **3.1.5. Risk Management**

3.1.5.1 Systematic assessment and management of risk is becoming an increasingly important part of internal control. Risk identification and management is seen as necessary to maximise the likelihood of achieving an institution's desired objectives and outcomes.

3.1.5.2 Risks fall into a variety of categories, some of the most common being:

- Strategic risks;
- Operational risks;
- Financial risks;
- Reputation risks.

3.1.5.3 It is the responsibility of the governing authority to ensure that a robust system of risk management is in place in the university. This involves:

- The identification of risks that threaten the achievement of the university's objectives;
- The evaluation of the likelihood of occurrence and potential impact of the risks identified;
- The segregation of risks according to their gravity;
- An appraisal of the techniques employed to manage the major risks and identification of any further steps that should be taken;
- An appraisal of the levels of residual risk - after the application of mitigation techniques - and whether the residual risk is acceptable;
- Continuous monitoring of the effectiveness of controls and management techniques;
- Decision- making informed by the risk management process.

3.1.5.4 The governing authority should ensure that the risk assessment and management process is integrated into existing management systems. It should be kept as simple as possible. Roles and responsibilities should be clearly assigned and a person at a senior level with overall responsibility for it nominated.<sup>18</sup>

<sup>18</sup> Reference may be made to "Risk Management Guidance for Government: Departments and Offices" issued by the Department of Finance in March 2004.

### **3.1.6. Audit Committee**

- 3.1.6.1 There should be an Audit Committee established by the governing authority<sup>19</sup> of at least three members with written terms of reference which deal clearly with its authority and duties. In appointing members, consideration should be given to appointing individuals external to the staff and members of the university.
- 3.1.6.2 The constitution and terms of reference of the Audit Committee should be reviewed regularly by the governing authority and updated as appropriate.
- 3.1.6.3 The Committee should meet at least four times each year.
- 3.1.6.4 The Committee should report annually to the governing authority.
- 3.1.6.5 The Committee should have explicit authority to investigate any matters within its terms of reference and should be given the resources needed for this purpose including outside professional advice as necessary.
- 3.1.6.6 The Committee should keep under review and advise on the operation and effectiveness of the university's risk management systems and report annually thereon to the governing authority.
- 3.1.6.7 The Committee should advise on the selection and appointment of the external auditors.
- 3.1.6.8 The Committee should meet the external auditors at least once a year in the absence of executive members of the governing authority and other executive management.
- 3.1.6.9 The Head of Internal Audit should have ongoing access to the Chairperson of the Audit Committee and the Committee should meet the Head of Internal Audit at least once a year.
- 3.1.6.10 The Committee should meet with the nominated person with overall responsibility for Risk Management at least once a year.
- 3.1.6.11 A sample overall Terms of Reference for the Audit Committee, which can be adapted to cater for individual circumstances, is given below.

<sup>19</sup> All seven universities have established such audit committees.

**3.1.7. Sample Terms of Reference for Audit Committee****Constitution**

**Membership**

3.1.7.2 The membership of the committee shall be appointed by the governing authority. The Committee shall consist of at least three members. In appointing members consideration should be given to the skills and independence of members and in particular it may be appropriate that at least two members be external members of the governing authority and that at least one of the members need not be a member of the governing authority but may be external to the university. At least one member should have recent and relevant financial experience. The Chief Officer and Chairperson of the governing authority should not be a member of the Committee.<sup>20</sup> Members of the governing authority who hold responsibility within the university should not be members of the Committee.

3.1.7.3 The Chairperson of the Committee shall be appointed by the governing authority on the nomination of the Chief Officer of the university.

3.1.7.4 The Committee shall draw up its own working procedures.

**Frequency of meetings**

3.1.7.5 The Committee shall meet at least four times a year.

<sup>20</sup> While the 1997 Act provides that the Chief Officer is entitled to be chairperson of any committee appointed by the governing authority, it obviously would not be good governance practice for a Chief Officer or Chairperson to chair or to be a member of the Audit Committee.

### **Attendance at Meetings**

- 3.1.7.6 The Chief Financial Officer, Head of Internal Audit, Director of Risk Management, a representative of the external auditors engaged by the governing authority and any employee or external person relevant to the work of the Committee may attend for all or part of meetings at the invitation of the Committee.

The Committee will meet regularly with a representative of the Office of the Comptroller & Auditor General.

### **Mandate**

- 3.1.7.8 The Committee is authorised by the governing authority to investigate any activity within its terms of reference and to seek any information it may require on that activity from any employee of the university or its subsidiaries and all such employees are directed to co-operate with the Committee. The Committee shall be given the necessary resources for this purpose.
- 3.1.7.9 The Committee is authorised by the governing authority to obtain outside legal or other independent professional advice, if it considers this necessary.

### **Terms of Reference**

- 3.1.7.10 The terms of reference of the Committee are as follows-

- To discuss with the external auditor, before the audit commences, the nature and scope of the audit;
- To discuss problems and reservations arising from the audit and any other matters requested by the external auditors;
- To review the external auditor's Management Letter and all other audit letters from the external auditors and to consider management's response;
- To monitor the performance and quality of the external auditor's work and the auditor's independence from the university;
- To obtain from the external auditor up- to- date information to enable the Committee to monitor the university's relationship with the auditor, including but not limited to information relating to the auditor's affiliates;
- To recommend, taking account of the legal provisions, whether or not to award contracts to an auditor or an affiliate for non-audit or audit- related work.

#### *Internal Controls and Risk Management*

- To satisfy itself that the arrangements made for and resources available to Internal Audit are suitable, and to monitor performance of Internal Audit;

- To consider other topics, as requested by the governing authority or initiated by the Committee;
- To promote co-ordination between the university's internal and external auditors.

## **Reporting Arrangements**

- 3.1.7.11 The Committee shall make an annual written report on its activities to the governing authority within three months after the conclusion of the financial year. The report will include the Committee's opinion on the adequacy of the systems of internal controls and risk management. The Committee will report to meetings of the governing authority on such other occasions as requested.
- 3.1.7.12 Minutes or reports of meetings of the Committee shall be circulated to each member of the governing authority.

## **3.1.8 Sample Charter for Internal Audit**

### **Introduction**

- 3.1.8.1 The Internal Audit service is responsible for conducting an independent appraisal of all of the university's activities, financial and otherwise. It should provide a service to the whole organisation, including the governing authority and all levels of management.
- 3.1.8.2 The Internal Audit service is responsible for assurance to the university's governing authority and Chief Officer on the entire system of controls. It assists management by evaluating and reporting to them on the effectiveness of the controls for which they are responsible. It remains the duty of the management, not the auditor, to operate an adequate system of internal control.

### **Mission of Internal Audit**

- 3.1.8.3 The general aim is to help the university to accomplish its objectives by conducting a systematic and disciplined review of the effectiveness of risk management, control, governance processes and performance. As part of this it helps to ensure the reliability of internal and external reporting and assists compliance with laws and regulations. Each assignment undertaken by Internal Audit is intended to provide an independent, objective assurance as well as recommendations designed to add value and improve the operations of the university.

### **Scope**

- 3.1.8.4 All the university's activities, funded from whatever source, fall within the remit of Internal Audit, which is not confined solely to financial matters. Internal

Audit will consider the adequacy of controls necessary to secure propriety, economy, efficiency and effectiveness in all areas. It will seek to confirm that management have taken the necessary steps to achieve these objectives.

- 3.1.8.5 Internal Audit may also conduct any special reviews requested by the governing authority, Chief Officer or Audit Committee provided such reviews do not compromise its objectivity or independence or achievement of the approved audit plan.

#### **Responsibilities**

- 3.1.8.6 The Head of Internal Audit is required to give an annual opinion to the Audit Committee, on the adequacy and effectiveness of the whole system of internal controls within the university, and the extent to which the governing authority may rely on it.
- 3.1.8.7 To provide the required assurance the Internal Audit service will undertake medium-term and annual programmes of work. These will be drawn up by the Head of Internal Audit and then forwarded to the governing authority following the approval of the Audit Committee. The programmes will be designed to:
- Appraise progressively the soundness, adequacy and application of the entire control system;
  - Ascertain the extent to which the entire system of internal control ensures compliance with established policies and procedures;
  - Ascertain the extent to which the assets of the university are properly controlled and safeguarded from losses arising from fraud, irregularity or corruption;
  - Ascertain that accounting and other information is reliable as a basis for producing accounts, and for financial, statistical and other returns;
  - Confirm the reliability of management information;
  - Confirm compliance with laws, regulations, Government Guidelines and EU requirements.

### **Standards and Approach**

- 3.1.8.8 Internal Audit will, in general, and taking account of the control environment, adopt a systems-based approach to its audits supplemented, as appropriate, by the use of traditional transaction testing and verification methods on a sample basis.
- 3.1.8.9 The Internal Audit function should carry out its work professionally and ethically and having regard to the Standards for the Professional Practice of Internal Auditors, published by the Institute of Internal auditors, and the Auditing Practices Board.
- 3.1.8.10 In order to demonstrate that due professional care has been taken in performing its work, it is necessary to have comprehensive records of activity showing that the work has been performed in accordance with accepted standards of best practice.

### **Authority and Access**

- 3.1.8.11 The governing authority and the Chief Officer hereby authorise Internal Audit to act on their behalf in carrying out its work.
- 3.1.8.12 The Internal Audit service has rights of access to all of the university's records, information and assets which it considers necessary to fulfil its responsibilities. Rights of access to other bodies controlled or funded by the university should also be guaranteed.
- 3.1.8.13 The Head of Internal Audit shall have direct access to the Chairperson of the governing authority, the Chief Officer and to the Chairperson of the Audit Committee in the performance of his or her duties.

### **Independence**

- 3.1.8.14 Internal Audit has no operating responsibilities, and will remain independent of, the activities being examined. However, if deemed appropriate by the Chief Officer, its remit may extend to systems being developed and it may provide advice on control and related matters arising without prejudicing its right to subsequently audit such systems.

### **Liaison**

- 3.1.8.15 The Internal Audit service will liaise closely with the external auditors appointed by the governing authority.

**Follow- Up**

- 3.1.8.16 On completion of an audit, findings will be relayed to the management and employees of the audited area for their views. These views will be considered and incorporated in the final report. Copies of the final report will go to the Chief Officer, the Audit Committee and the governing authority.
- 3.1.8.17 There will be periodic follow-up action by Internal Audit to ascertain if findings and recommendations have been acted upon by management.

**Annual report**

- 3.1.8.18 The Head of Internal Audit should provide an annual report on Internal Audit activities. This report shall be forwarded, within three months after the end of the financial year, to the Audit Committee, the Chief Officer and the governing authority. The report should comment, inter alia, on the adequacy of the resources available to it to carry out its approved programmes.

Identify and work to eliminate barriers to access to services for people experiencing poverty and social exclusion, and for those facing geographic barriers to services.

#### **Physical Access**

### **3.5 Guidelines for Best Practice in Asset Disposal and Access to Assets by Third Parties**

- 3.5.1 The disposal of university assets and access to university assets are governed by the 1997 Act, and in particular by Sections 13 and 42 of that Act.
- 3.5.2 Universities should adhere to best practice for the disposal of assets or the granting of access to property or infrastructure for commercial arrangements e.g. joint ventures with third parties. It should be standard practice that the disposal of assets of universities or the granting of access to property or infrastructure for commercial arrangements e.g. joint ventures with third parties, with an anticipated value at or above a threshold level of €70,000, should be by auction or competitive tendering process, other than in exceptional circumstances. Such exceptional circumstances could include a sale to a charitable body or where universities believe that competitive tendering is not appropriate due to the sensitive nature of particular arrangements in respect of research collaborations, joint ventures with industry or other external parties or in respect of arrangements where Intellectual Property may be brought to a university. Where in such circumstances a decision has been taken that competitive tendering is not appropriate such cases should be reported to the governing authority. In all cases, the method used should be both transparent and likely to achieve a fair market-related price.
- 3.5.3 If an auction or competitive tendering process takes place and the highest bid is not accepted, it is desirable that specific governing authority approval be required before the disposal of the asset, or granting of access to property or infrastructure for commercial arrangements with third parties, can be completed. For reasons of transparency, such approval together with the reason why a lower bid was permitted to be accepted should be noted in the minutes of the governing authority.
- 3.5.4 If an auction or competitive tendering process does not take place, and the agreed price is €70,000 or more, then it is desirable that specific governing authority approval be required before negotiations start and also before the disposal of the asset or granting of access to property or infrastructure for commercial joint venture arrangements with third parties can be completed.
- 3.5.5 No disposal of an asset or grant of access to property or infrastructure for commercial arrangements with third parties should be completed until the officer authorising the disposal or grant of access has certified formally that (i) governing authority approval is not necessary, with the reasons therefor, or (ii) governing authority approval, where necessary, has been obtained.

- 3.5.6 In accordance with best practice, it is desirable that disposal of assets to members of governing authorities, employees or their families or connected persons, should, as with all disposals, be by a transparent method and at a fair market-related price. A record of all such disposals to such persons (to include details of the asset disposed of, price paid and name of the buyer) should be noted in a register kept for this purpose (minor disposals below a threshold approved by the governing authority may be omitted from the register). This register should be available for inspection, if requested, by the governing authority or by any member of the governing authority. The governing authority may retain a requirement that any disposal above an approved threshold may not be made without having been formally endorsed by the governing authority which may impose specific restrictions with regard to any such disposal.
- 3.5.7 In accordance with best practice, details of all disposals of assets or grants of access to property or infrastructure for commercial arrangements with third parties (save for connected third parties which is dealt with in **paragraph 3.5.2**) without auction or competitive tendering process should be formally reported, with the price paid and the name of the buyer, to the governing authority on an annual basis.
- 3.5.8 The Chairperson and Chief Officer in their report to the HEA (see **paragraph 2.10.4**) should affirm that the disposal procedures, as outlined above, have been complied with.
