Programme Regulations 2018-2019

MEng in Digital Health and Medical Technologies

(awarded jointly by DCU, Maynooth University and RSCI)

1.   Programme-specific rules and requirements

To be eligible to graduate with the award of Master of Engineering in Digital Health and Medical Technologies, candidates must pass 90 ECTS credits on this programme, with a minimum of 60 credits at level 9, and including a project worth 30 level 9 credits.

When calculating a candidate's precision mark, a 5 credit module is weighted at 100 points, a 7.5 credit module is weighted at 150 points, a 10 credit module is weighted at 200 points and the project is weighted at 600 points. If a candidate has passed 60 credits of taught modules, then the precision mark is based on all first attempts up to the time where the candidate has attempted 60 taught credits. Subsequent module passes are treated as repeat attempts. The candidate's first attempt at a project is used when calculating the precision mark.

Candidates who pass 60 credits of taught level 9 modules may exit with a Postgraduate Diploma in Engineering in Digital Health and Medical Technologies.

Project work is permitted over the summer months.

2.   Derogations

The pass mark for DCU and NUIM modules is 40%; RCSI modules and the capstone project have a pass mark

of 50%. The classification mark bands for this award are as follows:

First Class Honours (H1):	70% and above
Second Class Honours (H2):	55% to 69%
Pass:	<54%, subject to passing all components.

3.   Progression

There are no internal stages to the programme and thus no internal restrictions on progression.

4.   Compensation

Compensation is not permitted on this programme.

5.   Exam Regulations/Appeals

For each module (including the capstone project), students must comply with the examination regulations of the institution to which the module belongs. Breaches of examination regulations will be addressed by the relevant committees and procedures of that institution.

Similarly, an appeal of module results may only be considered by the appropriate appeals committee from the home institute of the module in question.

6. Resit Status/Categories

3REE854 (RCSI): No resit of exam or CA.
3REE855 (RCSI): 100% CA – no resit; Category 2
3REE860 (RCSI, MU, DCU): 100% CA – no resit; Category 2
