

**Faculty of Science and Health
Programme Regulations 2015-2016**

M.Sc. in Plasma & Vacuum Technology (MPV)

1. Programme-specific rules and requirements

Project Module PS516 has 30 ECTS credits.

2. Derogations from Marks & Standards

Derogation to **5.1**: A student must complete the M.Sc. in Plasma and Vacuum Technology programme in 10 years from the time of commencement of the programme.

Derogation to **6.2.1**: The required pass mark in a module is 50% of the maximum marks available.

Derogation to **6.2.2**: To pass a module a mark of 40% is required in the examination.

Derogation to **7.2.10**: The joint Programme Team will offer a “re-sit” attempt at the next sitting. If this occurs in the next academic session, then students will be allowed to carry pass elements if applicable.

3. Progression

Please see derogation 7.2.10 above. Students must complete 90 credits to obtain the Masters. Students will be able to exit with a Graduate Diploma if they complete 60 credits. Any required core modules for the exit awards are listed on the approved academic structure and will not include any credits from the dissertation/project element.

4. Compensation

Compensation is not permitted for taught post-graduate programmes. [Ref.: DCU M&S 7.2.7.].
