

FACULTY OF ENGINEERING AND COMPUTING

Programme Regulations 2018-2019

Programme Title:	Access/Qualifier/Graduate Diploma/Graduate Certificate/MEng in Mechanical and Manufacturing Engineering
Programme Code	MMAC/MMQA/MMQB/MMME
Offered on a full-time or part-time basis	Full Time (01) Part Time (02)

Note: *Programme Regulations should be read in conjunction with Marks and Standards which can be found at <http://www.dcu.ie/registry/examinations/index.shtml>*

1. Programme Specific Rules and Requirements

1.1 Calculation for the Award Classification

The MEng is awarded on the completion of 90 credits, of which 60 credits must be from Level 9 modules including MM533 Research Practice and Methodology (7.5 credits) and a 30 credit project and.

Students may obtain an MEng in Mechanical and Manufacturing Engineering with a Major in Biomedical Engineering or Sustainable Systems/Energy provided that they pass a project deemed to be in the area of the Major.

The access and the qualifier courses do not lead to an award but rather provide a possible entry to the MEng programme.

2. Derogations from Marks and Standards

Marks and Standards apply.

3. Progression

- 3.1 Progression from the Access course (MMAC) to the MEng programme is on the basis of achieving a minimum mark of 50% in each module.

Progression from the Masters Qualifier A (MMQA) programme to the MEng programme is on the basis of achieving a minimum mark of 50% in each level 8 module. Each module must be considered independently and the first 30 credits (4 x Level 8 modules) completed will be used for the decision.

Progression from the Masters Qualifier B (MMQB) programme to the MEng programme is on the basis of achieving a minimum mark of 50% in each level 8 module and a minimum pass mark in each level 9 module. Each module must be considered independently and the first 30 credits (4 x level 8 and/or level 9 modules) completed will be used for decision.

Module results for the MEng programme modules undertaken by students on the Qualifier programmes will be used in the calculation of precision marks once the student transfers to the MEng programme. The Qualifier programmes are considered to be part of the MEng programme and will be considered to count as an academic session for the modules attempted in the Qualifier programmes.

Module results for the MEng programme modules undertaken by students on the Qualifier programmes will be used in the calculation of precision marks once the student transfers to the MEng programme. The Qualifier programmes are considered to be part of the MEng programme and will be considered to count as an academic session for the modules attempted in the IFPXXX programme.

3.2 Exit Awards

The Graduate Diploma is awarded on the completion of 60 credits of Level 9 taught modules (project is not included).

The Graduate Certificate is awarded on the completion of 30 credits of Level 9 taught modules (project is not included).

4. Compensation

Marks and Standards apply.

5. Resit Categories

The resits offered for the August examinations diet vary depending on the module to be re-taken. The following is an explanation of the resit categories.

Resit category 1: A resit is available for all components of the module

Resit category 2: No resit is available where the module is 100% assessed by Continuous Assessment.

<i>Module Code</i>	<i>Module Title</i>
MM542	Project (Masters)
MM544	Project Sustainable Systems/Energy
MM546	Biomedical Project (Masters)

Resit category 3: No resit is available for the continuous assessment component and the examination must be re-taken.
