- 5.46 Student ref. GSB/2011/A5/5.46, MA, School of Humanities, Mater Dei Institute of Education
Dr Anne Dolan, Trinity College Dublin
Approved. Noted that the words 'in Irish Studies' should be deleted after 'MA'. Agreed that it would be helpful to give further consideration to the proposed word count of the thesis.

The difficulty of sourcing external examiners for professional doctoral programmes, when a number of candidates present for examination in cognate areas at the same time, was noted.

Agreed that a mechanism would be agreed between the Registry, the linked colleges and relevant Schools in the University to ensure that the same external examiner was not nominated in one area without other areas being aware of this (and with the risk that the nominee might not be approved because he/she would then exceed the appropriate number of appointments).

With respect to the box at the end of the PGR4 (notification of intention to submit thesis for examination) form, which elicits information about the nominated external examiner's previous experience, it was suggested that the words 'to completion' be added after 'supervision of research candidates' and 'co-supervision of research candidates'. It was agreed that the GSB would give consideration to this suggestion at a future meeting.

6. Requests for changes to supervisory arrangements

- 6.1 Student ref. GSB/2011/A5/6.1, Dublin City University Business School

- 6.2 Student ref. GSB/2011/A5/6.2, School of Education Studies

- 6.4 Student ref. GSB2011/A5/6.4, School of Nursing
Approved.

7. Other student issues

7.1 Request for transfer into Year 2 of the part-time PhD track (Dublin City University Business School)

Approved. Agreed that DCUBS would be requested to amend all the relevant references on the form to read ‘part-time’ rather than ‘full-time’, as ‘part-time’ is what is intended.

7.2 Request for transfer from Doctorate in Psychotherapy to PhD (School of Nursing)

Approved. Noted that there is no standard procedure for dealing with transfer requests such as this one.

7.3 Request for entry to the full-time PhD track (School of Electronic Engineering)

Approved. Agreed that the basis of the decision would be noted to the School as being the specific circumstances pertaining to the candidate’s case rather than any matter related to NARIC.

7.4 Request to register on Year 2 of the PDPE programme (School of Education Studies)

Decision deferred pending receipt of additional information from the School.

SECTION C: POLICY AND STRATEGY ISSUES

8. Proposed Graduate Training Elements

8.1 NS5029: Theoretical Perspectives in Sexuality Studies (Faculty of Humanities and Social Sciences)

Approved.

8.2 EE600: Propagation and Channel Modelling (Faculty of Engineering and Computing)

Approved.

9. Proposal on the management of requests for changes to supervisory arrangements

Noted that the need for this proposal had arisen because, with the implementation of the revised *Academic Regulations for Postgraduate Degrees by Research and Thesis* from 26 September 2011 onwards, changes to supervisory arrangements would be approved within Faculties rather than having to be approved by the GSB but, none the less, it would be important to ensure equity of treatment for students across the University. Agreed that the proposal would be submitted for the consideration of Faculties and that the Faculties would also be requested to articulate their views as to the desirability, or otherwise, of continuing to use the current form (or an appropriately adapted version of it). Noted that the appropriate use of forms had the potential to facilitate standard approaches to requests for changes to arrangements.

10. Request relating to publication of theses

A number of concerns were raised in respect of the request, including the potential for confusing a thesis with a book based on the thesis and the fact that the request appears not to take account of the fact that theses are normally available on DORAS as a matter of course. Agreed to consider the issue at a future meeting of the GSB. Agreed that the Chair would mention to the Head of School who had received the request in the first instance that consideration was being given to the issue and the GSB would issue a recommendation in due course.

11. Any other business

11.1 Noted, in the case of a candidate who had submitted a Master's thesis for examination, that an appropriate arrangement had been made within the School in respect of the sign-off of the corrections.

11.2 Noted that discussions were in progress to ensure that research students were always represented among the student members of Academic Council.

- 11.3** The GSB membership expressed its appreciation to Professor Murphy for having led the committee since its inception, and wished him every success in his future endeavours.

Date of next meeting:
