

FACULTY OF ENGINEERING AND COMPUTING

Programme Regulations 2018-2019

Programme Title	Springboard Programme: Graduate Certificate in Artificial Intelligence
Programme Code	GCAI
Offered on a full-time or part-time basis	Part Time (02)

Note: Programme Regulations should be read in conjunction with Marks and Standards which can be found at <http://www.dcu.ie/registry/examinations/index.shtml>

1. Programme Specific Rules and Requirements

1.1 Calculation for the Award Classification

To be eligible to graduate with the award of Graduate Certificate in Artificial Intelligence, candidates must pass the 5 core 7.5 credit modules [37.5 credits] on this programme.

When calculating a candidate's precision mark, the weighted average of the 4 core modules is used. The core module OI501 is pass/fail.

2. Derogations from Marks and Standards

Marks and Standards apply.

3. Progression

3.1 Credits for progression

This is a continuous programme. Once a candidate has met the programme requirements they will graduate.

4. Compensation

Marks and Standards apply.

5. Resit Categories

The resits offered for the August examinations diet vary depending on the module to be re-taken. The following is an explanation of the resit categories. All modules except those specified below fall into category 1.

Resit category 1: A resit is available for all components of the module.

Resit category 2: No resit is available where the module is 100% assessed by continuous assessment.

Resit category 3: No resit is available for the continuous assessment component and the examination must be re-taken.

Please list category 3 modules:

<i>Module Code</i>	<i>Module Title</i>
CA660	Statistical Data Analysis
CA682	Data Management and Visualisation
CA684	Machine Learning
