Recruitment Opportunities

The Insight Centre for Data Analytics, an SFI funded Research Centre at Dublin City University are looking for expressions of interest for:
- Postdoctoral Researcher positions
- Funded PhD positions
- Research Assistant positions

Insight’s research focus encompasses a broad range of data analytics technologies from multimedia analytics, information retrieval and personal sensing. We’re recruiting suitably qualified engineers and computer scientists as well as chemists, biologists, materials scientists, engineers and biomechanists to join our team.

Together, with more than 220 partner companies, Insight researchers are solving critical challenges in the areas of
1. Health and Human Performance
2. Smart Communities and the Internet of Things
3. Enterprises and Services
4. Sustainability and Operations

All expressions of interest, to include CV and cover letter detailing your area of interest (in PDF only), are to be submitted to the email below:
