

Seminar: Trauma Informed Care

DATE Friday 13th April, 2018.

LOCATION XG20, Lonsdale Building, DCU.

Ramona Alaggia, Factor-Inwentash Chair in Children's
Mental Health, University of Toronto

David Williams, Dublin Institute of Technology

Rosaleen McElvaney, Dublin City University

Trauma informed care is a framework for working with children and youth who are particularly vulnerable. With histories of child abuse and complex trauma, they enter our care systems with troubling behaviours and symptoms, but are not able to articulate their experiences. A trauma informed approach helps to respond more effectively to these children and youth.
