DCU, Institute of Education - St Patrick's Campus

Monday

A fourth year group of Science Specialism students will be having a Science Kahoot Quiz in Java from 1.00-2.00pm. Test your Science knowledge and take part in the fun of Science Week 2016. There will be spot prizes on the day. Free to take part, so why not get involved.

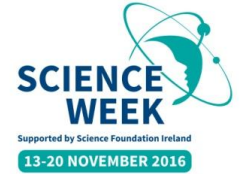

Keep an eye on the Science Week blog using the following link: IoEscienceweek2016.blogspot.com

Videos will be posted each day of investigations that can be carried out on School Placement.

Tuesday

Riddle Tuesday. Outside Java from 1.00-2.00pm there will be a chance to test your science misconceptions. Free to take part and you're in with a chance to win some Science spot prizes. Winners will be posted on the 'Primary Science Solutions' Facebook page.

Primary Science Solutions is a Facebook Page set up by a group of 5 fourth year Science Specialism Students to provide ideas and resources for SP and give advice on the different areas of Science that can be taught in your class during SP. We are available all week long from 9.00am – 6.00pm to answer your questions and queries. Give us a like.

Wednesday

A group will be visiting the 5th class students in St. Columba's G.N.S. The children will get the opportunity to engage in different forensic investigations and talk about the importance of Science Week in schools.

Another group will be holding a workshop in E204 from 1.00-2.00pm. Here, they will be performing a number of different Science Investigations that can be used in the classroom. Lesson plans and resources will be provided on the day. Great ideas for School Placement.

Saturday

Mteach Student Pearse Ahern will provide a workshop for PME Post Primary Science Teachers on 'Inside Aghada' and a second workshop will be provided to past and present PME students on the new Junior Science Specification.
