DCU WATER PROJECTS

PROJECT TITLE:	One-step drinking water treatment using nanofiltration and nanostructured composites
PROJECT PARTNERS:	TE Labs
LEAD PI NAME:	Brid Quilty, Jenny Lawlor, Kieran Nolan, Anne Morrissey
FUNDED BY:	EPA Strive Program
PROJECT SUMMARY:	The development of new nanostructured composites based on graphene for application in one-step drinking water treatment for small water schemes.
FURTHER INFO ON PI:	See website www.dcu.ie/water
